1 Kurs xaritasi va ushbu hujjatdan qanday foydalanish

Ushbu hujjat — Toshkent texnologiya universitetidagi «English for Engineering –I» asosiy (Foundation) kursining 5–7-haftalari bo'yicha to'liq, o'z-o'zicha yetarli yordamchi qo'llanma $(2026 - yilkuz$ semestri, $4ECTS$; modul koordinatorlari Ella Tsoy va Florence Dujarric, Energetika muhandisligi fakulteti). Modul barcha bakalavr yo'nalishlari uchun majburiy — 60 soat auditoriya mashg'uloti (30 soat ma'ruza $+30$ soat amaliy) va ustiga qo'shimcha 60 soat mustaqil ta'lim, oldindan talab qilinadigan yoki parallel o'qiladigan fanlar yo'q — va u Foundation bosqichi talabalarini umumiy maktab ingliz tilidan ishonchli, aniq va tartibli kundalik hamda akademik muloqotga o'tishga tayyorlaydi. Ushbu qo'llanma blok bo'yicha tegishli barcha kurs fayllaridan qo'lda tayyorlandi: 5-, 6- va 7-haftalar ma'ruza materiallari hamda 5-hafta grammatika ish varag'i(passiv va uning qo'llanilishi). 5–6-haftalar fayllari OCR yordamida matnga o'tkazilgan rasmli skanerlar bo'lib, ayon skanerlash nuqsonlari tozalandi; biroq o'sha manbalarda uchraydigan har bir savol, bo'sh joy to'ldirish, moslashtirish topshiriqi, ta'rif va munozara savoli so'zma-so'z keltirilgan, va har bir mashqdan so'ng to'liq javob kaliti berilgan. Sillabusning baholash jadvaliga ko'ra, ushbu blokni qamrab oluvchi Test 2 — qog'ozda bajariladigan yozma ish (1 soat, 10 %), shuning uchun quyidagi grammatika kataloglari eng batafsil yoritilgan.

Qamrov rasmiy kurs tuzilmasiga amal qiladi. 5-hafta blokni Describing Processes and Sequences (jarayonlar va ketma-ketliklarni tasvirlash) mavzusi bilan ochadi: grammatika yo'nalishi — passiv (barcha zamonlar); u «The solution to our energy problems…isa toaster» TED suhbati orqali oldindan ko'rsatiladi; so'ngra ma'ruza ishlab chiqarish jarayonlari lug'ati (drilling, casting, welding…), «How Is Tea Made?» o'qish matni hamda quyosh radiatsiyasi matni va uning ketma-ketlik tiliga qurilgan jarayon tasvirlash yo'nalishi ustida ishlaydi. 6-hafta Understanding Graphs and Short Talks (grafiklar va qisqa nutqlarni tushunish) mavzusiga o'tadi: og'zaki bayon yo'nalishi oddiy grafik va diagrammalarni tasvirlashni (diagramma turlari, harakat fe'llari va otlari, sifat–ravish juftlari) mashq qildiradi; ma'ruza sabab-oqibat tilini hamda qisqa nutqlarning tuzilishi va yo'naltiruvchi iboralari (signposting) bo'yicha tinglash yo'nalishini qo'shadi, bundan tashqari «How to Spot a Misleading Graph» TED suhbati ham mavjud. 7-hafta blokni Comparing Solutions (yechimlarni taqqoslash) mavzusi bilan yakunlaydi: grammatika yo'nalishi — ot yasalishi: u «Virtually Fluent» so'z yasalishi videosi bilan tanishtiriladi va suffikslar, prefikslar, so'z ildizlari, qo'shma otlar hamda konversiya orqali ishlanadi; undan keyin o'qishni tushunish va Switch Games og'zaki bayon mashg'uloti keladi.

Ushbu hujjatning har bir haftalik qismi bir xil ichki tuzilishga ega. Avval qoidalar katalogi keladi: hafta manbalarida o'rgatiladigan har bir qoida, shakl jadvali va til qutisi rasmiy tarzda yozib chiqilgan va uzluksiz raqamlangan, shu sababli istalgan qoidani javob kalitlaridan iqtibos keltirish mumkin. So'ngra savollar va topshiriqlar keladi: ular manba fayllarida uchragan tartibda guruhlangan, har biri o'z manbasi bilan belgilangan va darhol to'liq javob kaliti bilan keltiriladi. Tinglash va video mashg'ulotlari o'z topshiriqlari bilan ko'chirilgan; agar javob faqat sinfda o'tirgan talabalar ko'ra oladigan yozuv yoki rasm sahifasiga bog'liq bo'lsa, kalit kutilayotgan javob turini va eng ehtimoliy to'ldirish variantini ko'rsatadi, shunda mashqni baribir tekshirish mumkin. Oxiridagi ilova tezkor ma'lumot materiallarini to'playdi — passiv bo'yicha tezkor ma'lumotnoma, fe'$l+$ predlog naqshlaridan iborat grafik tili banki, ot yasalishi jadvali va o'nta bir qatorli takrorlash javobi — shu tariqa bu yerdagi savollar banki «oxirigacha» to'liq bo'ladi.

1.1 Haftalik reja va manbalar (5–7-haftalar)

[Manba: kurs sillabusi; 5–7-haftalar kurs fayllari]

Hafta Mavzu Manbalar

Jarayonlar va ketma-ketliklarni tasvirlash: grammatika — ew5lec.txt (5-hafta ma’ruzasi, $OCR, 13$ sahifa); ew5gw.txt passiv (barcha zamonlar); TED suhbati «The solution to (5-hafta grammatika ish varag’i — passiv va uning qo’llanilishi, our energy problems. . . isa toaster»; tinglash va og’zaki bayon — ishlab chiqarish jarayonlari; o’qishni tushunish — «How Is Tea Made?»; jarayonni tasvirlash (quyosh radiatsiyasi; ketma-ketlik so’zlari)

Hafta Mavzu Manbalar

Grafiklar va qisqa nutqlarni tushunish: og’zaki ew6lec.txt (6-hafta ma’ruzasi, $OCR, 14$ sahifa) bayon — oddiy grafik va diagrammalarni tasvirlash; TED suhbati «How to Spot a Misleading Graph»; sabab-oqibat tili; qisqa nutqlarni tinglash

- tuzilishi va yo’naltiruvchi iboralari (signposting)

Yechimlarni taqqoslash: grammatika — ot yasalishi Week7Lecture.txt (7-hafta ma’ruzasi, matn qatlami, 14 sahifa) (so’z yasalishi videosi «Virtually Fluent»; suffikslar, prefikslar, ildizlar, qo’shma otlar, konversiya); o’qishni tushunish; og’zaki bayon — Switch Games

2 5-hafta — Jarayonlar va ketma-ketliklarni tasvirlash; passiv

2.1 5-hafta uchun grammatika katalogi

[Manba: 5-hafta ma’ruzasi $(ew5lec.txt), 1$-qism — Language Reference: passiv (barcha zamonlar); 5-hafta grammatika ish varag’i

$(ew5gw.txt)$, «the passive and its uses» qoidalar sahifasi]

5-haftada bitta grammatika bloki bor: passiv — kursning jarayon va ketma-ketliklarni tasvirlash uchun zarur bo’lgan barcha zamonlarda. Quyidagi qoidalar 5-hafta ma’ruzasining til reference paneli va 5-hafta grammatika ish varag’ining to’liq qoidalar sahifasini to’playdi; har bir misol o’sha ikki fayldan iqtibos keltirilgan.

- Shakl. Passiv $(be+$ past participle) ko’pincha harakatni kim bajargani aytilmagan, ma’lum emas yoki muhim

bo’lmaganda ishlatiladi: $Alot$ of films are shot on location. The director died when the film was being made. When is our car being repaired? You’ll be picked up at the airport by one of our staff. This bill must be paid tomorrow. I love being given a massage. The new concert hall will be opened by the King. Passiv gaplarda fe’lning to’ldiruvchisi yangi egaga aylanadi: Artem’s bike has been stolen. $(=$ somebody has stolen Artem’s bike, but we don’t know who.)

- Passivning qo’llanilishi $(ish$ varag’ining qoidalar sahifasi). Passivni (a) muhim ma’lumotni —

aktiv gapning to’ldiruvchisini — gap boshiga ko’chirish uchun ishlating: Two men are being questioned by the police.; (b) shaxssiz bo’lish va harakatni bajaruvchi shaxsning ismini tilga olmaslik uchun

- ilmiy yoki texnik jarayonlarda passiv ko'p ishlatiladi: Oil and gas are found beneath the ground or sea; (c) harakatni kim bajargani ayon bo'lganda (masalan, teachers), yoki people, they kabi umumiy egani ishlatmaslikni xohlaganimizda: Aztec boys were trained to fight. Two missing children have been found safe and well.; (d) kundalik nutqdan ko'ra ko'proq rasmiy nutq va yozuvda.

- Vositachi by. Harakatni kim bajarganini aytmoqchi bo'lsak, by ni ishlatamiz $(ma'$ruza). by ni «agent»ni yoki harakatni

bajargan shaxsni bilish muhim bo'lganda ishlatamiz — Some countries have been harmed by tourism. Many buildings in the city have been damaged by the earthquake. — va faqat chinidan zarur bo'lgandagina: The two men were arrested. $(bythe$ police — this is obvious).

- Aktiv yoki passiv — fokusning ikki usuli. Bir gapni ko'pincha ikki xil usulda aytish mumkin: aktiv yoki

passiv shaklda. Taqqoslang: Napoleon was directed by Ridley Scott. $(= we$ want to focus more on the film) / Ridley Scott directed Napoleon. $(= we$ want to focus more on the director).

- Inkor va so'roq gaplar aktiv gaplardagi kabi bir xil usulda yasaladi: Some films aren't shot

on location. Is your car being repaired today?

- Hozirgi zamondagi oddiy passiv (Present simple passive): am$/is/are+$ past participle (umumiy holda rost bo'lgan jarayonlar uchun): Oil

and gas are found beneath the ground or sea. This room isn't used very often. O'tgan zamondagi oddiy passiv (Past simple passive): was/were + past participle (tugallangan voqealar uchun): The college was built in the 16th century. Aztec boys were trained to fight.

- O'tishli va o'tishsiz fe'llar. To'ldiruvchisi bor fe'llar o'tishli fe'llar deb ataladi; to'ldiruvchisi

yo'q fe'llar o'tishsiz deyiladi. Faqat o'tishli fe'llar passivga aylantirilishi mumkin: I lost my wallet on the way to school. (transitive)$/I$ swim every day. (intransitive).

- Predlog with. Harakatni bajaradigan buyumlar uchun with ni ishlating: The game was played with a

ball of solid rubber.

- Fan va muhandislikda passiv. Jarayonlar haqida gapirishda passivni ko'p ishlatamiz,

chunki jarayon bosqichlari ularni bajargan shaxsdan muhimroq: ma'ruzadagi ishlab chiqarish tavsiflari hammasi passivda — A hole is made using a drill. A material is pressed into the correct shape. Hot liquid material is poured into a container and cooled... — va xuddi shu naqsh haftaning ilmiy matni orqali ham o'tadi: Around 25% is then reflected by the upper atmosphere and clouds... Finally, 50% is absorbed by the Earth's surface.

- Jarayonni ketma-ketlik bilan bayon qilish. Jarayondagi voqealar haqida gapirishning bir qancha turli usullari bor. Siz

ravishlardan — firstly, then, next, after that, finally — foydalanishingiz mumkin (Firstly, some energy is removed by the clouds.). Ikki voqea o'rtasidagi bog'liqlikni ko'rsatish uchun after, as, as soon as, once va when kabi so'zlarni ham ishlatishingiz mumkin (As soon as sunlight hits the flower, its petals open.). At this stage iborasi aniq ketma-ketlik yaratishga yordam berish uchun xizmat qiladi (The temperature reaches 100°C. At this stage, the water in the container begins to boil.).

Zamon Aktiv Passiv

present simple We find oil and gas beneath the ground or sea. Oil and gas are found beneath the ground or sea.

present continuous The police are questioning two men. Two men are being questioned by the police.

past simple Teachers trained Aztec boys to fight. Aztec boys were trained to fight.

present perfect Tourism has harmed some countries. Some countries have been harmed by tourism.

will We will choose a new class representative on A new class representative will be chosen on Monday. Monday.

2.2 5-hafta ma'ruzasi, 1-qism: Grammatika — Passiv — savollar va javoblar

[Manba: 5-hafta ma'ruzasi ($ew5lec.txt$), 1–5-sahifalar — kirish, TED suhbatini oldindan ko'rish, tezkor tekshiruv, asosiy mazmunni tinglash, Language

Reference, 1–2-mashqlar]

2.2.1 Oldindan ko'rish mashqlari — TED suhbati «The solution to our energy problems$...isa$ toaster»

Tinglashdan oldin ma'ruza suhbatning asosiy lug'atini uchta panelda ko'rsatib beradi. Har bir atamani uning ta'rifi va suhbatda qo'llanilish tarzi bilan birga o'rganing — ta'riflar javoblardir.

Atrof-muhit va energetika atamalari

Oldindan ko'rish 1 — Fossil Fuels (noun). Ta'rifni va suhbatdagi misolni ayting.

Javob. Ta'rif: qadimgi o'simlik va hayvon qoldiqlaridan hosil bo'lgan tabiiy energiya manbalari (masalan, ko'mir, neft va tabiiy gaz). Ushbu suhbatda: most industrial manufacturers burn fossil fuels to create high-temperature heat.

Oldindan ko'rish 2 — Carbon Pollution / Emissions (noun). Ta'rifni va suhbatdagi misolni ayting.

Javob. Ta'rif: atmosferaga chiqariladigan, issiqlikni ushlab qoladigan va iqlimga zarar yetkazadigan issiqxona gazlari (asosan CO_2). Ushbu suhbatda: industrial heat is responsible for roughly 20% of global carbon pollution.

Oldindan ko'rish 3 — Intermittent (adjective). Ta'rifni va suhbatdagi misolni ayting.

Javob. Ta'rif: uzluksiz bo'lmagan; notekis oraliqlarda to'xtab-qayta boshlanadigan. Ushbu suhbatda: renewable energy from wind and solar is intermittent because it depends on the weather (the wind blowing or the sun shining).

Materiallar va mexanika atamalari

Oldindan ko’rish 4 — Composite (noun). Ta**’rifni va suhbatdagi misolni aytin g.**

Javob. Ta’rif: yaxshilangan xossali yangi modda olish uchun ikki yoki undan ortiq alohida elementni birlashtirib tayyorlangan material. Ushbu suhbatda: a nickel and chromium composite was invented in 1905 to make better heating elements.

Oldindan ko’rish 5 — Filament / Heating Element (noun). Ta**’rifni va suhbatdagi misolni ayting.**

Javob. Ta’rif: elektr qarshilik tufayli elektr energiyasini issiqlik energiyasiga aylantiruvchi ingichka sim yoki metall bo’lakcha. Ushbu suhbatda: the large storage bricks are threaded with filaments, just like the ones inside a kitchen toaster.

Oldindan ko’rish 6 — Abundant (adjective). Ta**’rifni va suhbatdagi misolni ayting.**

Javob. Ta’rif: katta miqdorda mavjud; mo’l-ko’l va topish oson. Ushbu suhbatda: materials like bricks, rocks, and molten salt are cheap and abundant, making them great for storing heat.

Issiqlik va tuzilish atamalari

Oldindan ko’rish 7 — Disperse (verb). Ta**’rifni va suhbatdagi misolni ayting.**

Javob. Ta’rif: biror narsani sochib yuborish, keng maydonga tarqatish yoki teng taqsimlash. Ushbu suhbatda: coiled toaster wires allow heat to be dispersed evenly across a slice of bread or a structural brick.

Oldindan ko’rish 8 — Encased (adjective/verb). Ta**’rifni va suhbatdagi misolni ayting.**

Javob. Ta’rif: himoya idishi yoki tashqi qatlam ichiga to’liq joylashtirilgan, yopilgan yoki o’ralgan. Ushbu suhbatda: the entire thermal battery system is encased in insulating steel.

Oldindan ko’rish 9 — Insulation (noun). Ta**’rifni va suhbatdagi misolni aytin g.**

Javob. Ta’rif: issiqlik, elektr yoki tovushni ushlab qolib, chiqib ketishiga yo’l qo’ymaydigan material. Ushbu suhbatda: steel insulation ensures that less than 1% of the heat escapes the battery chamber daily.

Oldindan ko’rish 10 — Channels (noun). Ta**’rifni va suhbatdagi misolni aytin g.**

Javob. Ta’rif: havo, gaz yoki suyuqlik oqib o’tishi mumkin bo’lgan tor, ochiq yo’laklar yoki o’tish joylari. Ushbu suhbatda: the interlocking blocks are molded with open channels so that cold gases can be blown through them to collect the stored heat.

2.2.2 Tezkor tekshiruv: oldindan ko’rish testi

Tinglashdan oldin bo’sh joylarni yuqoridagi lug’atdan olingan so’zlar bilan to’ldiring.

Quick Check 1. Solar power is highly dependent on the weather, making it an ___ energy source.

Javob. intermittent — uzluksiz bo’lmagan; notekis oraliqlarda to’xtab-qayta boshlanadigan (renewable energy from wind and solar is intermittent because it depends on the weather).

Quick Check 2. To **keep the heat inside the system from escaping into the factory, the brick chamber must be heavily ___.**

Javob. insulated — izolyatsiya bilan himoyalangan; izolyatsiya — issiqlikni ushlab turish va chiqib ketishiga yo'l qo'ymaslik uchun ishlatiladigan material (steel insulation ensures that less than 1% of the heat escapes the battery chamber daily).

Quick Check 3. Concrete is a common building material made from a ___ of cement, sand, and gravel.

Javob. composite — yaxshilangan xossali yangi modda olish uchun ikki yoki undan ortiq alohida elementni birlashtirib tayyorlangan material.

Quick Check 4. Cool air is forced through open ___ inside the hot bricks to absorb the thermal energy.

Javob. channels — havo, gaz yoki suyuqlik oqib o'tishi mumkin bo'lgan tor, ochiq yo'laklar yoki o'tish joylari (the interlocking blocks are molded with open channels so that cold gases can be blown through them to collect the stored heat).

2.2.3 Asosiy mazmunni tinglash

Har bir savol uchun eng to'g'ri javobni tanlang.

Listening for gist 1. What is the main topic of this TED-Ed talk? A) The history of kitchen appliances and how they changed breakfast. B) Using a century-old toaster technology to build large-scale heat batteries for industry. C) The process of manufacturing high-quality bricks, rocks, and molten salt. D) How wind and solar energy can completely replace the electric grid today.

Javob. B) Using a century-old toaster technology to build large-scale heat batteries for industry. Suhbat buni tushuntiradi: toaster'ning isitish elementi — 1905-yilda ixtiro qilingan nikel va xrom kompoziti — hozir arzon va mo'l-ko'l saqlash g'ishtlari orasidan o'tkaziladi, shu tufayli oraliq (intermittent) qayta tiklanuvchan energiya sanoat uchun issiqlik sifatida saqlanadi.

Listening for gist 2. Why is industrial heat a major environmental problem according to the talk? $A)It$ consumes over 80% of the world's fresh water supply. $B)Itis$ too expensive for small companies to generate safely. C) Most companies burn fossil fuels to achieve high temperatures, creating 20% of global carbon pollution. D) Industrial factories release too much hot air directly into the atmosphere, causing global warming.

Javob. C) Most companies burn fossil fuels to achieve high temperatures, creating 20% of global carbon pollution. Lug'atdagi qator buni tasdiqlaydi: industrial heat is responsible for roughly 20% of global carbon pollution.

2.2.4 1-mashq — to'g'ri shaklni, aktiv yoki passiv, aylana bilan belgilang

To'g'ri shaklni, aktiv yoki passiv, aylana bilan belgilang. Birinchi misol berilgan: The college built / was built in the 16th century. → was built.

- The costumes for the show are making / are being made by hand.
- The story inspired / was inspired him to make a film.
- This castle hasn't inhabited / hasn't been inhabited for nearly a century.
- His latest film set $/isset$ in Vietnam in the 1960s.
- The film will shoot / will be shot in the autumn.
- The actors aren't recording / aren't being recorded the dialogue until next week.

- The house wasn’t using / wasn’t being used by the owners during the winter.
- The make-up artist has transformed / has been transformed the actor into a monster.
- They hadn’t owned / hadn’t been owned the company for very long before they went bankrupt.
- The photo took / was taken by my husband on the balcony of our hotel.

1-mashq — javoblar kaliti $(10ta)$**.**

Javob. (1) are being made; (2) inspired — the story harakatni bajaradi, demak aktiv to’g’ri; (3) hasn’t been inhabited; $(4)is$ set; (5) will be shot; (6) aren’t recording — the actors harakatni bajaradi (aktiv); (7) wasn’t being used; (8) has transformed — the make-up artist harakatni bajaradi (aktiv); (9) hadn’t owned — aktiv; (10) was taken. Umumiy qoida: ega harakatga duchor bo’lsa va bajaruvchi noma’lum yoki muhim bo’lmasa, passivni tanlang (1–2-qoidalar); ega harakatni to’ldiruvchiga nisbatan bajaradigan bo’lsa, aktivni saqlang (7-qoida).

2.2.5 2-mashq — ma’no o’zgarmasligi uchun passiv bilan to’ldiring

Ma’no o’zgarmasligi uchun passiv bilan to’ldiring. by ni faqat zarur bo’lgandagina ishlating. Birinchi misol berilgan: People don’t use this room very often. $\rightarrow$ This room isn’t used very often.

- They subtitle $alot$ of foreign films. $\rightarrow$ $Alot$ of foreign films ___.
- Garcia Marquez wrote Love in the Time of Cholera in 1985. $\rightarrow$ Love in the Time of Cholera ___ in

1985.

- Someone is repairing my laptop at the moment. $\rightarrow$ My laptop ___ at the moment.
- They haven’t released the $DVDof$ the film yet. $\rightarrow$ The $DVDof$ the film ___.
- They won’t finish the film until the spring. $\rightarrow$ The film ___ until the spring.
- You have to collect the tickets from the box office. $\rightarrow$ The tickets ___ from the box office.
- They hadn’t told the actor about the changes in the script. $\rightarrow$ The actor ___ about the changes in the

script.

- Damien Chazelle directed $LaLa$ Land. $\rightarrow$ $LaLa$ Land ___.
- They’ve already recorded the soundtrack. $\rightarrow$ The soundtrack ___.
- They were interviewing the director about the film. $\rightarrow$ The director ___ about the film.

2-mashq — javoblar kaliti $(10ta)$**.**

Javob. $(1)Alot$ of foreign films are subtitled. (2) Love in the Time of Cholera was written in 1985. $(3)My$ laptop is being repaired at the moment. (4) The $DVDof$ the film hasn't been released yet. (5) The film won't be finished until the spring. (6) The tickets have to be collected from the box office. (7) The actor hadn't been told about the changes in the script. $(8)LaLa$ Land was directed by Damien Chazelle. (9) The soundtrack has already been recorded. (10) The director was being interviewed about the film. Zamonlarga e'tibor bering: present simple (1), past simple (2, 8), present continuous (3), present perfect (4, 9), will (5), have to (6), past perfect (7), past continuous (10). by faqat (8)-misolda zarur — u yerda gapning asosiy nuqtasi rejissyorning ismi (3-qoida); (2)-misolda yozuvchining ismi kerak emas, chunki gap kitobga qaratilgan.

2.3 5-hafta ma'ruzasi, 2-qism: tinglash va og'zaki bayon — ayrim ishlab chiqarish

jarayonlari

[Manba: 5-hafta ma'ruzasi $(ew5lec.txt), 6$–8-sahifalar]

2.3.1 1-topshiriq — har bir rasmga tavsifni moslashtiring

Har bir rasmga tavsifni moslashtiring. Ma'ruzadagi $o'n$ ta rasm jarayon nomlari bilan belgilangan (skanerda o'qilgan yozuvlar: bolting, casting, drilling, inspection, painting, pressing, punching, turning, welding; o'ninchi yozuv 5-tavsifga tegishli).

- A hole is made using a drill.
- A surface is covered with paint.
- A hole is punched in a material.
- The work is checked carefully.
- A surface is polished to make it smooth and shiny.
- A material is pressed into the correct shape.
- Hot liquid material is poured into a container and cooled to make the correct shape.
- Two pieces are joined together using very high temperature.
- A material is turned on a machine called a lathe. Part of the material is removed to make the

correct shape.

- Two pieces are joined together using $anutanda$ bolt.

1-topshiriq — javoblar kaliti $(10ta$ **rasm).**

Javob. 1 — drilling; 2 — painting; 3 — punching; 4 — inspection; 5 — polishing; 6 — pressing; 7

- — casting; 8 — welding; 9 — turning; 10 — bolting. E’tibor bering: har bir jarayon tavsifi present simple zamonidagi passiv gapdir (9-qoida).

2.3.2 2-topshiriq — ishlab chiqarish jarayoni (check valve)

1 Chizmalarga qarang. Check valve ishlab chiqarish jarayonining tavsifini tinglang. Bosqichlarga to’g’ri tartibda raqam bering. $(Ma$’ruzadagi oltita chizma bolting, drilling, turning, inspection, casting va painting jarayonlarini ko’rsatadi.) — Raqamlash yozuvga bog’liq; chizmalar va tavsiflardan kutilayotgan tartib ishlab chiqarish mantiqiga amal qiladi: the body of the valve is cast, then turned on a lathe, then the holes are drilled, the parts are bolted together, the valve is painted, and finally the work is inspected.

2 Yana tinglang. Savollarga javob bering.

2-topshiriq, 1-savol. Ma**’ruzachi jarayonni tushuntirishda qaysi fe’**l **zamonini ishlatadi?**

Javob. Hozirgi zamondagi oddiy passiv (present simple passive) — is/$are+$ past participle (6-qoida): a hole is made, a surface is covered, the pieces are joined…

2-topshiriq, 2-savol. Bu **zamon nega ishlatilgan?**

Javob. Chunki ishlab chiqarish jarayonida muhim bo’lgan narsa — bosqichlarning o’zi, ularni bajargan shaxs emas: harakatni kim bajargani aytilmaydi, ma’lum emas yoki muhim emas (1-qoida), va passiv ilmiy hamda texnik jarayonlarni tasvirlashning standart usulidir $(2 - va9-$qoidalar).

2-topshiriq, 3-savol. Ma**’ruzachi jarayon bosqichlarining tartibini tushuntirishda qanday so’zlarni ishlatadi?**

Javob. Ketma-ketlik so’zlari: first(ly), then, next, after that, finally — ketma-ketlik qutisidagi ravishlar (10-qoida).

2.3.$3Og$’zaki nutq — ishlab chiqarish jarayonini tushuntirish

Juftliklarda ishlang. A talaba A tarqatma varag’idan, B talaba B tarqatma varag’idan foydalanib, ishlab chiqarish jarayonini tushuntiradi. (Tarqatma varaqlar sinfda tarqatiladi; quyidagi namuna kutilayotgan uslubni ko’rsatadi.)

Og**’zaki nutq topshiriqi — namunaviy javob.**

Javob. To’liq tavsif present simple passivga ketma-ketlik so’zlarini qo’shib ishlatadi: First, the body of the valve is cast from hot metal and cooled to make the correct shape. Then it is turned on a lathe, and part of the material is removed. Next, a hole is drilled, and the parts are bolted together with $anutanda$ bolt. After that, the valve is painted. Finally, the work is checked carefully — the valve is inspected.

2.4 5-hafta ma’ruzasi, 3-qism: o’qishni tushunish — «How Is Tea Made?»

[Manba: 5-hafta ma’ruzasi $(ew5lec.txt), 8$–10-sahifalar]

2.4.1 1-mashq: Lug’at

O’qishdan oldin maqoladagi har bir so’zni (1–10) uning ma’nosi $(A$–$J)$ bilan moslashtiring. Harfni Javob ustuniga yozing.

- 1 pluck (plucked)
- 2 moisture

- 3 brew
- 4 wither (withering)
- 5 oxidation
- 6 enzymes
- 7 granules
- 8 bruise
- 9 grade
- 10 tea chest
- A. very small, rough pieces, like tiny grains
- B. to make a hot drink by pouring hot water onto tea leaves
- C. a large wooden box used to store and transport tea
- D. a process in which something reacts with the air and changes colour
- E. to pick leaves or flowers from a plant
- F. to damage the surface of something by pressing or hitting it
- G. to lose water and become soft and weak
- H. natural chemicals in living things that cause changes
- I. the small amount of water inside something
- J. to put things in order by size, type or quality

1-mashq — javoblar kaliti $(1–10 ni A–J$ **bilan moslashtirish).**

Javob. 1 — $E(to$ pick leaves or flowers from a plant); 2 — $I(the$ small amount of water inside something); 3 — $B(to$ make a hot drink by pouring hot water onto tea leaves); 4 — $G(to$ lose water and become soft and weak); 5 — $D(a$ process in which something reacts with the air and changes colour); 6 — $H($natural chemicals in living things that cause changes); 7 — $A($very small, rough pieces, like tiny grains); 8 — $F(to$ damage the surface of something by pressing or hitting it); 9 — $J(to put$ things in order by size, type or quality); 10 — $C(a$ large wooden box used to store and transport tea).

Juftlikda tekshiring: shu so’zlardan ikkitasini ishlatib, zavodda choy barglariga nima bo’lishi mumkinligini $o’z$ fikringizcha ayting. Fikrlaringizni $o’$qish paytida tekshirasiz. — Namuna: First the leaves are plucked and taken to the factory, where they are withered — they lose their moisture and become soft and weak.

2.4.2 2-mashq: $To’g’$ri yoki noto’$g’$ri (True or false)?

Maqolani $o’$qing. Har bir bayonot uchun $T($true) yoki $F($false) deb yozing. Agar bayonot noto’$g’$ri bo’lsa, uni to’$g’$rilang. (Maqola sahifalari kurs faylida faqat rasm ko’rinishida; quyidagi kalit kutilayotgan javoblarni beradi — $1, 3, 4 va 8$-misollar lug’at ta’riflari va 3-mashq bilan tasdiqlangan.)

- Tea factories are usually far from the tea gardens.
- Only 24 hours pass between plucking the leaves and packing the tea.
- The withering stage takes only a few minutes.
- During oxidation, the leaves change colour from green to brown.
- In China, teas are always named after the person who made them.
- $CTCtea$ was invented to increase the weight of tea that could be packed into a sack.
- Oolong tea is made from fully oxidised leaves.
- Green tea is made without the oxidation stage.

2-mashq — javoblar kaliti $(8ta$ **bayonot).**

Javob. $(1)F$ — tea factories are usually built close to the tea gardens, so that the leaves can be processed quickly after plucking (3-mashq, 1-savolga qarang). $(2)T$ — the whole process from plucking to packing takes about 24 hours. $(3)F$ — the withering stage takes several hours: the leaves lose their moisture and become soft and weak (Gta'rifi), bir necha daqiqa emas. $(4)T$ — during oxidation the leaves react with the air and change colour from green to brown (Dta'rifi). $(5)F$ — teas are not always named after the person who made them; many are named after other things, such as the place where they are made. $(6)T$ — $CTCtea$ is crushed, torn and curled into small granules, so more tea fits into a sack. $(7)F$ — oolong tea is made from partially oxidised leaves. $(8)T$ — green tea is made without the oxidation stage (3-mashq, 6-savolga qarang).

2.4.3 3-mashq: Qisqa javoblar

Har bir savolga bir yoki ikkita to'liq gap bilan javob bering, iloji boricha $o'z$ so'zlaringizdan foydalaning.

3-mashq, 1-savol. Why are tea factories usually built close to the tea gardens?

Javob. Because the leaves must be processed very soon after plucking; if the factories were far away, the leaves would lose their moisture and quality on the way.

3-mashq, 2-savol. Why are the leaves separated into batches of the same size?

Javob. So that all the leaves in a batch are processed in the same way: leaves of the same size wither, roll and oxidize evenly, which gives a consistent, well-graded tea.

3-mashq, 3-savol. What are the four stages of the orthodox method?

Javob. Withering, rolling, oxidation and drying — after drying, the tea is graded and packed.

3-mashq, 4-savol. What happens to the leaves during oxidation, and what does this stage decide?

Javob. During oxidation the enzymes inside the leaves react with the air, and the leaves change colour from green to brown and develop their flavour. This stage decides the type and strength of the tea — how dark and strong it will be.

3-mashq, 5-savol. How is the CTC method different from the orthodox method of rolling?

Javob. In the orthodox method the leaves are rolled into twisted pieces, but in the CTC method the leaves are crushed, torn and curled by machines into small granules; the process is faster, and the granules pack more tea into a sack.

3-mashq, 6-savol. Why does green tea have a light, fresh flavour?

Javob. Because green tea is made without the oxidation stage: the leaves are heated so that the enzymes stop working, and the leaves keep their light, fresh flavour.

2.5 5-hafta ma’ruzasi, 4-qism: jarayonni tasvirlash

[Manba: 5-hafta ma’ruzasi $(ew5lec.txt), 11$–13-sahifalar — A matni, lug’at, qo’llanilish izohi, 1–2-mashqlar, $BvaC$ matnlari, 3–6-topshiriqlar]

2.5.$1A$ matni — quyosh radiatsiyasi $(lug'atvaqo'$llanilish izohi bilan namunaviy matn)

Yo’nalishning namunaviy matni (Johnson, K. (2016). $GCSE$ Physics For You. $(5thed.)$. Oxford: Oxford University Press, 214-b. dan moslashtirilgan): All the planets absorb heat from the sun in a process known as solar radiation. However, for life on our planet to continue, Earth must stay at an average surface temperature of around 15°C. For the Earth to stay at a constant temperature, it needs to absorb and emit radiation at the same rates. As solar radiation travels to Earth, there is a series of steps which reduce the amount of radiation that reaches the surface: firstly, some is removed as it enters the atmosphere — the mixture of gases that surround our planet. Around 25% is then reflected by the upper atmosphere and clouds, while a further 20% is absorbed by them. 5% of the radiation is reflected from the surface of the Earth — by deserts or ice. Finally, 50% is absorbed by the Earth’s surface. Around 10% of this heat radiates from the surface, and the remaining 40% moves to the clouds and atmosphere. This heat is then radiated back out into space, completing the cycle.

Lug’at: absorb (v): issiqlik, yorug’lik yoki boshqa energiya shakllarini o’ziga singdirib olish va ushlab turish; emit (v): yorug’lik yoki issiqlikni chiqarib yuborish; reflect (v): yorug’lik yoki issiqlikni sirt orqali qaytarib yuborish (uchinchi ta’rif qatori skanerda faqat qisman o’qiladi).

Qo’llanilish izohi — jarayondagi ketma-ketlik $(so'zma - so'z)$: There are a number of different ways to talk about events in a process. You can use adverbs: firstly, then, next, after that, finally — Firstly, some energy is removed by the clouds. You can also use words like after, as, as soon as, once and when to show how two events relate to each other — As soon as sunlight hits the flower, its petals open. The phrase at this stage is used to help create a clear sequence — The temperature reaches 100°C. At this stage, the water in the container begins to boil.

2.5.2 1-mashq — ketma-ketlik so’zlari va iboralari

A matnining talaba yozgan xulosasini qutidagi ketma-ketlik so’zlari va iboralari bilan to’ldiring: as, at this stage, finally, firstly, then.

Bo’sh joyli xulosa: «1 ___, solar radiation enters the Earth’s atmosphere there are a number of steps that reduce it. 2 ___, approximately 25% is reflected by clouds and the upper atmosphere. 3 ___, a further 20% is absorbed by them. 4 ___, 5% is reflected back from the Earth’s surface. 50% is absorbed by the Earth’s surface. 10% of this heat radiates directly from the surface and 40% is transferred back to

the upper atmosphere and clouds. 5 ___, this remaining amount radiates back into space.»

1-mashq — javoblar kaliti $(5tabo'shjoy)$**.**

Javob. $(1)As$ solar radiation enters the Earth's atmosphere, there are a number of steps that reduce it. (2) Firstly, approximately 25% is reflected by clouds and the upper atmosphere. (3) Then, a further 20% is absorbed by them. $(4)At$ this stage, 5% is reflected back from the Earth's surface. (5) Finally, this remaining amount radiates back into space. Qutidagi har bir so'z bir marta ishlatiladi; as ikki voqeani bog'laydigan ergash gapni boshlab beradi (10-qoida).

2.5.3 2-mashq — jarayon lug'ati

Gaplarni qutidagi so'zlar bilan to'ldiring: constant, process, removed, series, steps.

- During the interview, he was asked a ___ of questions about his work experience.
- Child psychologists are interested in the ___ of learning among children.
- The number of students in higher education has remained ___.
- Following a large landslide, many trees and plants are ___ from the surface layer.
- The discovery of $DNAwasoneof$ the first ___ in understanding how to cure genetic conditions.

2-mashq — javoblar kaliti $(5tagap)$**.**

Javob. (1) series; (2) process; (3) constant; (4) removed; (5) steps.

2.5.$4BvaC$ matnlari — muhim jarayonlar, 3–6-topshiriqlar

B matni $(so'zma-so'z)$: A blood culture involves taking a sample of blood from a patient and transferring the blood into a blood culture bottle. The bottle is then transported to the laboratory for processing. The procedure has three main stages: sample taking, transport and processing. — Lug'at: culture (n): tibbiy yoki ilmiy tadqiqot uchun laboratoriyada yetishtirilgan hujayralar guruhi; sample (n): ko'pincha sinov uchun olinadigan moddaning kichik miqdori.

C matni $(so'zma-so'z)$: Many companies who use internet-based questionnaires now include «progress indicators». These tell the person who is completing the questionnaire how many questions they have answered. They also often say how much more information needs to be given to complete the task. Previous research suggested that the indicators could have a negative effect on how many people answer questionnaires. However, people who regularly answer these kinds of questionnaires report that if they know how long the process will be, they will answer more honestly and completely. It is also important that the last question in the process allows respondents to give their own opinions.

3-topshiriq. $BvaC$ **matnlarini** o**'qing. Mazmunni to'**g**'ri fanga moslashtiring: 1 business studies ___ 2 medicine ___.**

Javob. 1 business studies — C matni (internet asosidagi so'rovnomalar va ularning progress ko'rsatkichlari); 2 medicine — B matni (blood culture: namuna olish, tashish va qayta ishlash).

4-topshiriq. Ta'riflarni to'ldirish uchun to'g'ri so'zni tanlang.

- last / previous — happening or existing before an event that you are talking about now
- stage / task — a piece of work that has to be done
- procedure / stage — a point, period or step in a process
- procedure / task — a series of actions done in a particular order or way
- previously / regularly — often
- involve / transfer — to move from one place to another

4-topshiriq — javoblar kaliti $(6tata'rif)$**.**

Javob. (1) previous; (2) task; (3) stage; (4) procedure; (5) regularly; (6) transfer.

5-topshiriq. Gaplarni $BvaC$ matnlarida ajratib ko'rsatilgan so'zlarning to'g'ri shakli bilan to'ldiring.

- To stay fit and healthy it is important to get ___ exercise.
- The final ___ of the experiment involved heating the materials to 1,000°C.
- The major ___ to the economy began with the banking crisis in 2008.
- The current energy minister has ___ worked for a major oil and gas company.
- The writing exam ___ describing a graph, and then writing an essay.
- The oesophagus ___ food from the mouth to the stomach.

5-topshiriq — javoblar kaliti $(6tagap)$**.**

Javob. (1) regular (regularly so'zidan, C matni); (2) stage (stages so'zidan, B matni); (3) change (bu misolda bo'sh joyning joylashuvi skanerda to'liq o'qilmaydi — gapga 2008-yilda boshlangan yirik iqtisodiy voqea uchun ot kerak); (4) previously (previous so'zidan, C matni); (5) involved (involves so'zidan, B matni); (6) transfers (transferring so'zidan, B matni).

6-topshiriq. Quyidagi mavzulardan biri haqida qisqa matn yozing (ikki-uchta gap). Unitning ba'zi so'zlarini ishlatishga harakat qiling: • Sizga tanish bo'lgan jarayon yoki siklni tasvirlab bering. • $O'z$ **yo'nalishingizda qaysi jarayonlar muhimligini tushuntirib bering.**

Javob. Birinchi mavzu uchun namuna (passiv + ketma-ketlik so'zlari, 9–10-qoidalar): Bread is made in four stages. First, the grain is cleaned and ground into flour; then the flour is mixed with water and yeast, and the dough is left to rise. After that, the dough is shaped and baked at about 200°C, and finally the loaves are cooled and packed. Ikkinchi mavzu uchun namuna: In energy engineering, the most important processes are generation and distribution: first, fuel is burned in a furnace and water is heated to make steam; the steam is then used to drive a turbine, and the turbine drives a generator, so electricity is produced and carried to consumers through power lines.

2.6 5-hafta grammatika ish varag’i — topshiriqlar va javoblar

[Manba: 5-hafta grammatika ish varag’$i(ew5gw.txt), 1$–6-mashqlar, 1–5-sahifalar; qoidalar sahifasi yuqoridagi katalogda keltirilgan

(1–8-qoidalar)]

2.6.1 1-mashq — o’tgan zamondagi oddiy passiv (past simple passive)

Gapni qavs ichidagi fe’lning o’tgan zamondagi oddiy passiv (past simple passive) shakli bilan to’ldiring. a misoli berilgan: In ancient times, fires (light) were lit to use smoke as a signal over long distances.

- b. Morse code (invent) ___ by an American called Samuel Morse.
- c. The world’s first television images (show) ___ to scientists in Scotland in 1926.
- d. Radios (use) ___ to broadcast coded messages during the Second World War.
- e. The World Wide Web (design) ___ originally to make it easier for nuclear physics researchers to

communicate.

- f. Buying books and CDs over the Internet (make) ___ popular by the company Amazon.
- g. The first mobile phones with cameras (sell) ___ in Japan.
- h. Vinyl albums and tapes (replace) ___ by CDs, which are now being replaced by mp3.
- i. The first English dictionary (wrote) ___ by Robert Cawdrey in 1604.
- j. The first mass-produced cars (introduce) ___ by the Ford company in the USA.

1-mashq — javoblar kaliti $(b$–j **misollari).**

Javob. (b) was invented; (c) were shown; (d) were used; (e) was designed; (f) was made; (g) were sold; (h) were replaced; (i) was written — ish varag’ida o’tgan zamon shakli wrote berilgan, ammo passiv uchun o’tgan sifatdosh (past participle) — written kerak; (j) were introduced. Har bir gap tugallangan o’tgan voqeani bayon qiladi, shuning uchun shakl was/were + past participle bo’ladi (6-qoida).

2.6.2 2-mashq — «How $atoycar$ is made» (hozirgi zamondagi oddiy passiv — present simple passive)

Matnni o’qing va barcha ega, fe’lva to’ldiruvchi tuzilmalarini tagiga chiziq bilan belgilang. So’ngra matnni present simple passive fe’llari yordamida qayta yozing. Keraksiz so’zlarni tashlab yuboring. a misoli berilgan: Asa first step, a computer is used to plan the exact shape of the car.

Matn $(so'zma - so'z)$: In the factory, they use a computer to plan the exact shape of the car. They then feed this computer program into a machine, and produce a plastic prototype. Then they produce the actual toy cars in a factory abroad. $Asfar$ as construction is concerned, they make the bodies of the cars from plastic. They add small electric motors to the cars, and then they paint them. They also attach

licence plates. Quality control inspects the cars and then they wrap them and pack them into cardboard boxes. They ship the cars to Britain.

2-mashq — javoblar kaliti $(a$–g **misollari).**

Javob. $(a) Asa$ first step, a computer is used to plan the exact shape of the car. (berilgan)(b) This computer program is then fed into a machine, and a plastic prototype is produced. (c) The actual toy cars are produced in a factory abroad. (d) The bodies of the cars are made from plastic $(asfaras$ construction is concerned). (e) Small electric motors are added to the cars, and then they are painted; licence plates are also attached. $(f) At$ the next stage, the cars are inspected by quality control, and then they are wrapped and packed into cardboard boxes. (g) Finally, the cars are shipped to Britain. c–g misollarining birinchi so'zlari ish varag'ida chop etilgan; b misoli skanda qisman yashiringan bo'lib, xuddi shu naqshda tiklangan. Umumiy they egasi keraksiz bo'lgani uchun tashlab yuborilgan $(2c-$qoida).

2.6.3 3-mashq — «the Freedom Ship» (will passiv yoki present perfect passiv)

Matnni qavsdagi fe'llarning will passiv yoki present perfect passiv shakllaridan biri bilan to'ldiring. a misoli berilgan: In recent years many plans (make) have been made for large floating cities with living accommodation for as many as 50,000 people.

Matn $(so'zma - so'z$, bo'sh joylar bilan): One such project which b(advertise) ___ is the Freedom Ship. According to the plans for this project, this huge ship c(construct) ___ from smaller units, which d(take) ___ out to sea for final assembly. The ship e(power) ___ by 100 diesel engines, and the residents on board f(carry) ___ around the world continuously. The large number of people on the ship g(provide) ___ with all kinds of food, entertainment and sports facilities, and modern recycling methods $h(use)$ ___ to save energy on board. At the time of writing, this project $i(not$ build) ___, and j(criticize) ___ by some people who say it is too expensive. We shall have to wait and see whether this ambitious plan ever becomes reality.

3-mashq — javoblar kaliti $(b$–j **misollari).**

Javob. (b) has been advertised; (c) will be constructed; (d) will be taken; (e) will be powered; (f) will be carried; (g) will be provided; (h) will be used; $(i) has$ not been built; (j) has been criticized. Yozilayotgan paytda allaqachon mavjud bo'lgan reja-rejalar present perfect passive oladi; kema qurilgandan keyin ro'y beradigan hamma narsa will passive oladi.

2.6.4 4-mashq — by bilan present perfect passive

Gapni by bilan present perfect passive ishlatib qayta yozing. Keraksiz so'zlarni tashlab yuboring. a misoli berilgan: Cheaper air travel has made possible the global expansion in tourism. $\rightarrow$ The global expansion in tourism has been made possible by cheaper air travel.

- b. Countries all over the world have experienced a growth in tourism.
- c. Millions of tourists have visited the popular Mediterranean resorts since the 1970s.
- d. Recently tourists have chosen more distant locations in Africa, Asia and South America.
- e. Mass tourism has badly affected some countries.
- f. International companies have built large hotels on unspoilt coastline.

- g. These developments have disturbed local wildlife.
- h. Tourists have damaged coral reefs and other habitats.
- i. Such developments have also displaced local people.
- j. Some governments have developed the idea of ecotourism to counteract some of these problems.

4-mashq — javoblar kaliti (b–j **misollari).**

Javob. $(b) A$ growth in tourism has been experienced by countries all over the world. (c) The popular Mediterranean resorts have been visited by millions of tourists since the 1970s. (d) More distant locations in Africa, Asia and South America have recently been chosen by tourists. (e) Some countries have been badly affected by mass tourism. (f) Large hotels have been built on unspoilt coastline by international companies. (g) Local wildlife has been disturbed by these developments. (h) Coral reefs and other habitats have been damaged by tourists. (i) Local people have also been displaced by such developments. (j) The idea of ecotourism has been developed by some governments to counteract some of these problems.

2.6.5 5-mashq — shahar rivoji (present perfect passive yoki past perfect passive)

Shahar rivoji haqidagi ma’lumotni o’qing. So’ngra matnni qavsdagi fe’llarning present perfect passive yoki past perfect passive shakli bilan to’ldiring. a misoli berilgan: In many countries in recent years, areas of urban land which were once used for industrial purposes (redevelop) have been redeveloped for other purposes.

Matn ($so'zma - so'z$, bo’sh joylar bilan): In London, for example, the Docklands b(transform) ___ since the 1980s. The docks c(build) ___ in the 19th century when London was a busy port, but by the 1980s, most business d(lose) ___ and many docks e(close) ___. This left large areas of derelict land, and many people without jobs. Since the 1980s, £10 billion ($17 billion)$f$(spend) ___ on the project. 600 hectares of derelict land g(improve) ___, $9kmof$ new roads h(build) ___, 80,000 new jobs i(create) ___ and 24,000 new homes j(construct) ___. In addition to this, 100,000 new trees k(plant) ___ and 130 hectares of parks l(create) ___. Cultural venues such as the Docklands Arena m(open) ___. Some local people do not agree with all the things that $n(do)$ ___, as houses here are expensive, and most jobs are in media, IT or business. On the other hand, a declining area of the city o(give) ___.

5-mashq — javoblar kaliti (b–o **misollari).**

Javob. (b) has been transformed; (c) had been built; (d) had been lost; (e) had been closed; (f) has been spent; (g) has been improved; (h) have been built; (i) have been created; (j) have been constructed; (k) have been planted; (l) have been created; (m) have been opened; (n) has been done; (o) has been given. Doklar qurilgan, biznes yo’qolgan va doklar yopilgan — bularning hammasi 1980-yillardan oldin, shuning uchun ular past perfect passive (had been + past participle) oladi; 1980-yillardan keyingi hamma narsa present perfect passive oladi. Manba sahifasi o(give) dan keyin uzilgan; gapning kutilayotgan davomi — has been given a new lease of life.

2.6.6 6A-mashq — someone yoki people so’zlarisiz qayta yozish

Har bir gapni someone yoki people so’zlari qatnashmaydigan qilib qayta yozing. a misoli berilgan: Someone built ships with sails more than 5,000 years ago. → Ships with sails were built more than 5,000 years ago.

- b. Someone constructed a hot-air balloon in 1783.
- c. People developed the steam ship in the 19th century.
- d. Someone opened the first successful passenger railway in 1830.
- e. People started the first passenger airlines after the First World War.

6A-mashq — javoblar kaliti (b–e **misollari).**

Javob. (b) A hot-air balloon was constructed in 1783. (c) The steam ship was developed in the 19th century. (d) The first successful passenger railway was opened in 1830. (e) The first passenger airlines were started after the First World War.

2.6.7 6B-mashq — vositachi by bilan qayta yozish

Har bir gapni vositachi by qatnashadigan qilib qayta yozing.

- f. The Chinese probably printed the first books more than a thousand years ago.
- g. The Remington company sold the first modern typewriters in the 1870s.
- h. Edison recorded the first words on a gramophone record in 1877.
- i. The Lumière brothers created the first modern cinema in France in 1895.
- j. Valdemar Poulsen invented the tape recorder in 1899.

6B-mashq — javoblar kaliti (f–j **misollari).**

Javob. (f) The first books were probably printed by the Chinese more than a thousand years ago. (g) The first modern typewriters were sold by the Remington company in the 1870s. (h) The first words on a gramophone record were recorded by Edison in 1877. (i) The first modern cinema was created by the Lumière brothers in France in 1895. (j) The tape recorder was invented by Valdemar Poulsen in 1899.

3 6-hafta — Grafiklar va qisqa nutqlarni tushunish

3.1 6-hafta uchun lug’at va og’zaki nutq katalogi

[Manba: 6-hafta ma’ruzasi ($ew6lec.txt$), 1-qism «Graphs and Diagrams» va «How to Describe Graphs and Charts in English»,

2-qism «Cause-and-effect Language», 3-qism «Listening to Short Talks» — Language Reference: Sign-posting Language bilan]

3.1.1 Diagramma turlari

- Diagrammalar — ma’lumotlarni ixcham ko’rinishda taqdim etishning vizual usullari. Ular ko’pincha figures deb ham ataladi. Akademik

maqolada ular odatda Fig. (Figure) 1, Fig. 2 va hokazo deb belgilanadi.

- Pie chart (sektorli diagramma) — umumiy summa qanday bo’linishini ko’rsatish uchun markazdan

bo’laklarga bo’lingan doira (xuddi tort tilimalari kabi). Key yoki legend har bir bo’lak nimani anglatishini ko’rsatadi.

- Bar chart (ustunli diagramma) — turli miqdorlar kengligi bir xil, lekin balandligi yoki uzunligi har xil bo’lgan

ingichka vertikal yoki gorizontal ustunlar bilan ifodalanadigan diagramma.

- Histogram (gistogramma) — ustunli diagrammaning bir turi, biroq unda turli qiymatlarni ko’rsatish uchun ustun kengligi ham o’zgaradi.

- Table (jadval) — raqamlar joylashtirilgan ustunlar va qatorlardan iborat to’r.

- Cross-section (ko’ndalang kesim) — ichini ko’rish mumkin bo’lsin deb o’rtasidan kesib olingan narsa yoki

uning modeli. Masalan, yer qobig’ining ko’ndalang kesimi uni tashkil etuvchi turli qatlamlarni ko’rsatadi. Label (belgi) kesimning har bir qismi nomini beradi. Cross-section, shuningdek, umumiy guruh ichidagi barcha turlarni ifodalaydigan kichik guruh ma’nosida ham ishlatiladi (masalan, the survey looked at a cross-section of society).

- Flowchart (blok-sxema) — jarayon bosqichlarini ko’rsatuvchi diagramma.

- Keng uchraydigan xato. Aniq bir diagrammani ko’rsatayotganda aniq artikl (the) ishlatilmaydi: See

Table $4(NOTSeethe$ Table 4).

3.1.2 Grafik tili: o’qlar, nuqtalar va chiziqlar

- Grafiklar ustiga nuqtalar belgilab, so’ngra qo’shni nuqtalarni birlashtiruvchi chiziq tortib chiziladi. Agar

grafikda ikkita alohida chiziq bo’lsa, chiziqlar turli nuqtalarda kesib o’tishi yoki kesishishi mumkin. Bir-biriga parallel yuruvchi chiziqlar hech qachon kesishmaydi.

- Line chart (chiziqli grafik)va bar chart vertikal o’q va gorizontal o’qqa ega; har bir o’qo’zida qanday turdagi

ma’lumot saqlanganini ko’rsatish uchun belgilanadi. Vertikal va gorizontal o’qda uchraydigan odatiy ma’lumotlar: age — necha yoshda; weight — qanchalik og’ir; height — qanchalik baland; date — qaysi kun, oy, yil va hokazo; time — qancha vaqt kerak; length — qanchalik uzun; width — qanchalik keng; degrees — qanchalik issiq yoki sovuq; percentage — 100% ichidagi ulush; number; duration — kerak bo’ladigan vaqt davomi.

- Namunaviy tavsif (ma’ruzadagi pocket-money misoli): The graph presents data relating to

teenagers and pocket money. A random sample of 1,000 teenagers were surveyed and the average pocket money received at each age has been plotted on the graph. The x axis or horizontal axis indicates age and the y axis or vertical axis shows the amount of money received per week. The graph shows that 15-year-olds receive twice as much pocket money as 13-year-olds. From the graph we can see that the amount received reaches a peak at the age of 18 and then starts to decline. This decline can perhaps be explained by the fact that many teenagers start earning and stop receiving pocket money at the age of 18.

3.1.3 Harakat fe'llari va otlari

- Grafiklar raqamlar qanday ortishi yoki kamayishini ko'rsatadi. Raqamlar, bundan tashqari, rise yoki grow ham deyilib

fall, drop yoki decline deb aytiladi. O'sish haqida ishlatiladigan boshqa fe'llar qatoriga double, soar, multiply, appreciate va exceed [boshqa raqam] kiradi: double = raqam yoki miqdorning ikki barobariga oshishi; antonimi = halve; soar = juda tez va katta miqdorda oshish; antonimi = plummet; multiply = juda katta songa ko'payish; appreciate = qiymatning oshishi; antonimi = depreciate; exceed = muayyan raqam yoki miqdordan yuqoriga oshish; antonimi = fall below.

- Til yordami. increase va decrease fe'llaridan keyin by keladi (masalan, The population of the city

has increased by 10%.). increase, rise, growth, fall, drop hamda decline, decrease otlaridan keyin in (nima ortayotganini tushuntirish uchun) yoki of (o'zgarish hajmini tushuntirish uchun) keladi, masalan: a rise / an increase of 15% in the number of cars.

- Ijobiy harakat — fe'lva ot: to climb — a climb; to ascend — an ascent; to rise — a rise;

to improve — an improvement; to recover — a recovery; to increase — an increase. Misollar: Sales have climbed over the past two quarters. We've experienced a rise in consumer demand. Consumer confidence recovered in the second quarter. There has been an increase of 23% since June. Have you seen any improvement in customer satisfaction?

- Salbiy harakat — fe'lva ot: to fall — a fall; to decline — a decline; to plunge — a

plunge; to decrease — a decrease; to worsen — a slip; to deteriorate — a dip. Misollar: Research and development spending has fallen by 30% since January. Unfortunately, we've seen a decline over the past three months. $Asyoucansee$, sales have plunged in the northwest region. Government spending has decreased by 10% over the past two years. There's been a slip in profits this past quarter. Comedy book sales have deteriorated for three quarters.

- Kelajakdagi harakatni bashorat qilish — fe'lva ot: to project — a projection; to forecast — a

forecast; to predict — a prediction. Misollar: We project improved sales in the coming months. $Asyoucan$ see from the chart, we forecast increased research and development spending next year. We predict improving sales through June.

3.1.4O'zgarish sifatlari va ravishlari

Sifat — ravish Ma**'nosi Misollar**

slight — slightly ahamiyatsiz There's been a slight decline in sales. / Sales have declined slightly over the past two months.

sharp — sharply tez, katta Investment rose sharply during the first quarter. $/We$ made a sharp harakat increase in investment.

abrupt — abruptly kutilmagan o'zgarish Sales dropped abruptly in March. / There was an abrupt drop in sales in March.

rapid — rapidly tez, juda tez We expanded rapidly throughout Canada. / The company made a rapid expansion throughout Canada.

sudden — suddenly ogohlantirmasdan, kutilmaganda Unfortunately, consumer interest suddenly decreased. / There was a sudden decrease in consumer interest in January.

dramatic — extreme, juda katta We've dramatically improved customer satisfaction over the past six dramatically months. $/Asyoucan$ see from the chart, the dramatic growth has come after we invested in a new product line.

calm — calmly tekis, uncha The markets have reacted calmly to recent developments. $/Asyoucano$'zgarishsiz see from the graph, consumers have been calm over the past few months.

flat o'zgarishsiz Profit has been flat over the past two years.

steady — steadily o'zgarmas $/bir$ xil daraja There has been a steady improvement over the past three months. / Sales have improved steadily since March.

3.1.5 Sabab va oqibat — fe'llar

Sabab va oqibat ko'pincha because kabi bog'lovchilar, due to va because of kabi predlogli ifodalar hamda therefore va consequently kabi ravishlar yordamida ifodalanadi. Ushbu yo'nalish sabab-oqibatga oid fe'llar va otlarga qaratilgan — ular bilan ishlatiladigan predloglarga alohida e'tibor bering. Siz, ehtimol, make, cause, create, do, produce va force fe'llari bilan allaqachon tanissiz; quyida ma'ruzadagi boshqa foydali fe'llar keltirilgan.

Fe**'l**Ma**'ruzadagi misol** Ma**'nosi / izoh**

influence Her grandmother influenced $/hada$ considerable — influence on Sarah's choice of career.

determine Parental attitude largely determines how well a child uni belgilovchi asosiy omil it adapts to school.

motivate A good teacher motivates their students. ularni ijobiy biror ishni qilishga undaydi

facilitate The flow of traffic through the town is facilitated by osonlashtiradi the one-way system.

provoke His speech provoked an angry response. sabab bo'ladi, odatda salbiy narsaga

trigger The explosion was triggered by the heat. boshlab yuboradi, odatda to'satdan va salbiy narsani

account for The tilting of the earth on its axis accounts for the tushuntiradi change in the seasons.

spring / stem from Sid's determination springs / stems from his desire to natijasidir improve the world.

give rise to The country's victory gave rise to a new mood in — society.

Fe'l ma'ruzadagi misol ma'nosi / izoh

contribute to Mobile technology contributed to the information ta'sir etuvchi omillardan biri edi revolution.

stimulate Their child was given drugs to stimulate growth. biror narsaning rivojlanishiga yoki ishlashiga sabab bo'ladi

generate Her exhibition generated alot of interest. biror narsaning ro'y berishiga yoki mavjud bo'lishiga sabab bo'ldi

induce The drugs may induce nausea. sabab bo'ladi, ko'pincha tibbiy kontekstda ishlatiladi

inhibit A teacher's presence can often inhibit teenagers' ular boshqa holatda bo'lishi mumkin bo'lganidan kamroq erkin bo'lishiga to'sqinlik qiladi discussions.

derive from A number of benefits can be derived from this biror narsa natijasida olinadi situation.

3.1.6 Sabab va oqibat — otlar

Ot Misol ma'nosi / izoh

chain reaction The incident set off a chain reaction which affected har biri keyingisiga sabab bo'ladigan o'zaro bog'liq voqealar ketma-ketligi us all.

effect, impact The effect/impact of the film on the audience was on predlogiga e'tibor bering very powerful.

end, means Does the end justify the means? end so'zi bu yerda maqsad (aim yoki goal) ma'nosida ishlatilganiga e'tibor bering

origin, source The accident was the origin/source of her later boshlanish yoki sabab problems.

precedent There are several precedents for taking such a allaqachon ro'y bergan va xuddi shunday qilish uchun asos beradigan narsa decision.

reason What was the reason for his success /why he reason ko'pincha for yoki why bilan kelishiga e'tibor bering succeeded?

3.1.7 Qisqa nutq tuzilishi va yo'naltiruvchi til (signposting)

Ma'ruzani tinglashda asosiy fikrlarni va tushuntiruvchi tafsilotlarni tanib olish kerak. Ma'lumot va g'oyalar qanday tashkil etilganini tushunish ham muhimdir. Ma'ruzachilar ma'ruza qanday tuzilishini ko'rsatish uchun yo'naltiruvchi (signposting) iboralardan foydalanishlari mumkin — bu iboralarni tanib olish nimani tinglayotganingizni va qaysi tartibda tinglayotganingizni tushunishga yordam beradi. Ma'ruzalarda, shuningdek, asosiy atama va g'oyalarning ta'riflari hamda izohlari ko'p uchraydi; samarali qayd yozish uchun ularni tanib olish muhim. Qisqa nutqning uchta ko'rinadigan qismi bor: kirish (umumiy ko'rinish beradi), asosiy fikrlar (bittadan ketma-ket keladi) va xulosa.

Funksiya Iboralar

Umumiy ko'rinish berish As we'll see from today's lecture .../In today's lecture I'd like to look at .../In this lecture, I'll be focusing on ...

Fikrlarni ketma-ket bayon qilish First, we'll look in more detail at .../ Then, we'll move on to look at .../ After that, we're going to see .../ And then finally, I want to take ...

Misollar, izohlar va oldingi gapga qaytish uchun iboralar (ma'ruzaning 6-topshirig'i): So for example; An obvious example of this is — misol keltirish; this can be understood

as; In other words; How that works is — izoh berish; AsI said; As we've already seen — oldin aytilgan narsaga qaytish.

3.2 6-hafta ma'ruzasi — savollar va javoblar

[Manba: 6-hafta ma'ruzasi $(ew6lec.txt), 1$–4-amaliy mashqlar, Statista amaliy mashg'uloti, TED suhbati savollari, 2-qism

1–5-mashqlar, 3-qism 1–6-topshiriqlar]

3.2.1 1-qism amaliyoti — 1-mashq: «Cars entering downtown West City» diagrammasini tasvirlash

Diagrammaga qarang va matnni yetishmayotgan so'zlar bilan to'ldiring. (Diagramma sakkiz yillik davr — 1–8-yillar — davomida har kuni West City markaziga kirayotgan mashinalar sonini ko'rsatadi; jami ko'rsatkichlar birinchi bir necha yilda ortadi va 6-yildan keyin kamayadi.)

Bo'sh joyli matn: The chart 1___ the number of cars entering the downtown area of West City each day over an eight-year period (years 1–8). The totals are listed on the 2___ axis (give two answers), while the years are listed on the 3___ axis. From the graph we see 4___. The number of cars 5___ for the first few years and 6___. The decline can be 7___ by the 8___ that a new mass transit railway was opened in year 6, which is a clear illustration of how good public transport can dramatically affect car use.

1-mashq — javoblar kaliti (skanerdagi bu sahifa qisman o'qilmaydi; kalit kutilayotgan to'ldirishlarni beradi).

Javob. (1) shows; (2) vertical $/y$(ikki javob talab qilinadi); (3) horizontal $/x$; (4) the general trend

- car use rose and then fell over the period; (5) rose / increased; (6) then fell / declined; (7) explained; (8) fact. Tavsif pocket-money namunasiga amal qiladi: grafik nimani taqdim etadi, o'qlar nimani ko'rsatadi, so'ngra tendensiya va uning izohi.

3.2.2 2-mashq — savollarga javob bering

2-mashq, 1-savol. Pie chart va bar chart misollarini chizing.

Javob. Pie chart (sektorli diagramma) markazdan bo'laklarga bo'lingan doira shaklida chiziladi (xuddi tort tilimalari kabi), key yoki legend esa har bir bo'lak nimani anglatishini ko'rsatadi; bar chart (ustunli diagramma) kengligi bir xil, balandligi yoki uzunligi miqdorlarga qarab o'zgaradigan ingichka vertikal yoki gorizontal ustunlar shaklida chiziladi.

2-mashq, 2-savol. Grand Canyondagi tog' jinslarining turli qatlamlarini taqdim etish uchun eng yaxshi diagramma turi qaysi?

Javob. Cross-section $(ko$'ndalang kesim) — ichini ko'rish mumkin bo'lsin deb o'rtasidan kesib olingan narsa; tog' jinsining ko'ndalang kesimi uni tashkil etuvchi turli qatlamlarni ko'rsatadi, label (belgi)$esahar$ bir qismning nomini beradi.

2-mashq, 3-savol. Jadvalda columns (ustunlar) va rows (qatorlar)o'rtasidagi farq nima?

Javob. Table (jadval) — raqamlar joylashtirilgan columns va rows dan iborat to'r: columns vertikal (yuqoridan pastga), rows esa gorizontal (jadval bo'ylab) yuradi.

2-mashq, 4-savol. Siz bajargan tadqiqot loyihasining turli bosqichlarini taqdim etish uchun qanday diagramma turi eng yaxshi bo'lardi?

Javob. Flowchart (blok-sxema) — jarayon bosqichlarini ko’rsatuvchi diagramma.

2-mashq, 5-savol. Qarama-qarshisidagi A dagi pie chartda nechta segment bor?

Javob. Bu misol chop etilgan diagrammaga bog’liq: ma’ruzaning 1-qismida ko’rsatilgan pie chart segmentlarini sanang — har bir segment («tort tilmasi») jami summaning bir qismini ifodalaydi va key yoki legendda belgilanadi.

2-mashq, 6-savol. Agar jadvaldagi ikkita qo’shni (adjacent) columnga qarasangiz, ular yonma-yonmi yoki ajratilganmi?

Javob. Ular yonma-yon — adjacent «bir-birining yonida joylashgan» deganini bildiradi («a line to join adjacent points» dagi kabi).

2-mashq, 7-savol. Diagrammadagi legendning yana bir nomi nima?

Javob. Key («$akeyor$ legend shows what each segment represents»).

2-mashq, 8-savol. Agar uchratgan birinchi 50 kishidan so’rov o’tsangiz, qanday turdagi ma’lumot yig’ishni bajaryapsiz?

Javob. Siz sample (namuna) olmoqdasiz — lekin pocket-money tadqiqotidagi random sample emas: uchratgan birinchi odamlarni tanlash aholining vakili bo’lgan cross-sectionni bermaydi.

2-mashq, 9-savol. Grafikdagi ikkita chiziq (a) kesishsa (intersect)$va(b)$ bir-biriga parallel yursa, ular nima qiladi?

Javob. (a) Ular bir nuqtada kesishadi; (b) ular hech qachon kesishmaydi — bir-biriga parallel yuruvchi chiziqlar hech qachon kesishmaydi.

2-mashq, 10-savol. $To’g$’ri gapni tanlang: (a) There was an increase in 12% of smart phone sales last year. (b) There was an increase of 12% in smart phone sales last year.

Javob. (b) to’g’ri: increase otidan keyin o’zgarish hajmi uchun of, ortayotgan narsa uchun in keladi — an increase of 12% in smart phone sales.

3.2.3 3-mashq — tagiga chizilgan so’zlarni aniqroq, akademik so’zlar bilan almashtiring

- The different bits of the pie chart show the numbers of people in each age group.
- She kept a record by marking the midday temperature on a graph for a month.
- People’s salaries usually reach their highest point when they are in their late 40s.
- This flowchart shows the different bits of our project over the next five years.
- The two lines on the graph cross each other at point A.
- Draw a line connecting the points that are next to each other.
- The government’s popularity in the opinion polls is beginning to go down.
- If you look along the third line of the table you can see the figures for the 1950s.

3-mashq — javoblar kaliti $(8tagap)$**.**

Javob. (1) segments; (2) plotting $(she$ kept a record by plotting the midday temperature on a graph); (3) reach a peak (salaries reach their peak in the late 40s); (4) stages; (5) intersect; (6) adjacent $(the$ points that are next to each other); (7) decline $(is$ beginning to decline); $(8)row($look along the third $rowof$ the table).

3.2.4 4-mashq — harakat fe'llarini ishlatib qayta yozing; atayin qilingan xatoni toping

Tagiga chizilgan so'z va iboralarni qarama-qarshi sahifadagi $Bdan($harakat paneli) olingan so'zlar bilan qayta yozing. Gaplardan birida, qo'shimcha ravishda, atayin qilingan xato bor. Uni topib, to'g'irlay olasizmi?

- Populations of some bird species in South Asia have crashed by 97% in recent years. The number

of cases of death by poisoning has increased sharply.

- $In2007$ the child mortality rate fell to lower than 60 deaths per 1,000.

- The average family car in the UK goes down in value by 20% per year. This means its value has

fallen by more than half after just three years.

- A typical piece of land on the edge of the city will go up in value by 15% per year, and house prices

have gone up rapidly by a large amount in the last six months.

- Business courses have increased greatly in number while science programmes have gone down.

- The temperature rose higher than 45°C in some parts of the country. See the figure 3.

- Between $1983and2006$, the number of this species of eagle went up from 22 pairs to 58. Other

bird populations have gone up to twice the number in the same period.

- The numbers of old soldiers attending regimental reunions are becoming smaller each year.

4-mashq — javoblar kaliti $(8tagap+$ **atayin qilingan xato).**

Javob. (1) have plummeted by 97% (soar fe'lining antonimi); the number of cases has soared; (2) fell below 60 deaths per 1,000; (3) depreciates by 20% per year (qiymati kamayadi); its value has more than halved after just three years; (4) appreciates by 15% per year (qiymati ortadi); house prices have soared in the last six months; (5) business courses have multiplied while science programmes have declined; (6) the temperature exceeded 45°C — va atayin qilingan xato: See the figure 3 iborasi See Figure 3 deb tuzatilishi kerak, aniq artiklsiz (keng uchraydigan xato qoidasi); (7)

rose from 22 pairs to 58; other bird populations have doubled (raqam ikki barobar oshgan); (8) are declining / decreasing each year (kichrayib bormoqda).

3.2.5 Amaliy mashg'ulot — statista.com saytidagi grafikni tasvirlash

A talaba va B talaba — https://www.statista.com/ saytiga kiring, grafik tanlang va uni shu bo'lim lug'atidan foydalanib tasvirlab bering.

Statista amaliy mashg'uloti — namunaviy javob.

Javob. To'liq tavsif pocket-money namunasiga amal qiladi: The line graph presents data relating to passenger numbers on the city metro. The y axis or vertical axis shows the number of passengers per month, and the x axis or horizontal axis indicates the months of the year. From the graph we can see that passenger numbers rose steadily from January to June and reached a peak in July. After that, they declined slightly, and by December they had fallen to the January level. This decline can be explained by the fact that the universities were on holiday.

3.2.$6TED$ Talk: How to Spot a Misleading Graph — tinglab tushunish

Asosiy mazmunni tinglash — suhbat bo'yicha savollarga javob bering.

TED **talk, question 1. What is the main topic of the video?** $a)$ **How to make graphs using computer software.** $b)$ **How graphs can mislead people, and how to spot it.** $c)$ **Why politicians and advertisers should not use numbers.** $d)$ **The history of statistics in advertising.**

Javob. $b)$ How graphs can mislead people, and how to spot it.

TED **talk, question 2. What does the speaker say about the way people usually think of graphs?** $a)$ **They are too complicated for most people.** $b)$ **They are always accurate because they show hard numbers.** $c)$ **People tend to trust them more than** a **plain claim, even though they can be manipulated.** $d)$ **They are only used in science, not in advertising.**

Javob. $c)$ People tend to trust them more than a plain claim, even though they can be

manipulated.

TED **talk, question 3. What is the speaker's overall advice at the end?** $a)$ **Never trust any graph.** $b)$ **Only trust graphs from official organizations.** $c)$ **Look carefully at the labels, numbers, scale, and context, and ask what story the graph is telling.** $d)$ **Make your own graphs instead of using other people's.**

Javob. $c)$ Look carefully at the labels, numbers, scale, and context, and ask what story the

graph is telling.

TED **suhbati, 4-savol.** $O'z$ **so'zlaringiz bilan grafik chalg'itishi mumkin bo'lgan ikki usulni nomlang. (Ochiq javob)**

Javob. Suhbatdan namunaviy javoblar: (1) vertikal $o'q$ yaqinlashtirilishi yoki kesib tashlanishi mumkin, natijada kichik farq dramatik ko'rinadi; (2) yorliqlar, raqamlar, masshtab yoki kontekst o'zgartirilishi yoki tushirib qoldirilishi mumkin — masalan, boshlang'ich chiziq (baseline) tushirib qoldirilishi mumkin — shuning uchun grafik qanday hikoya aytayotganini har doim so'rang.

3.2.7 2-qism: Sabab-oqibat tili — 1-mashq

Har bir gapni to'ldirish uchun eng mos fe'lni tanlang.

- Researchers are investigating why chocolate provokes / induces headaches in certain people.

- Wilson’s most recent paper has motivated / generated a great deal of interest among sociologists.

- The drug triggered / facilitated headaches and dizziness among a number of subjects in the test.

- Having an end-of-term prize contributes / motivates students to do well in their class tests.

- Intensive farming has contributed to / provoked the decline of bird populations.

- The missile test stimulated / provoked an immediate and very strong response from neighbouring

governments and from the United Nations.

- Astrologers believe that people’s lives are motivated / determined by the planets and stars.

- The barrier inhibits / induces the flow of water into the area to prevent flooding in the rainy season.

- A leak in the tank stemmed from / accounted for 40% of the fuel loss, and evaporation took away

another 5%.

- The renovated college buildings have wider doors to influence / facilitate the use of wheelchairs.

- The Minister cut taxes in an attempt to stimulate / trigger the economy, which was performing

poorly.

- Britain has facilitated / derived many economic benefits from membership of the European Union.

2-qism, 1-mashq — javoblar kaliti $(12tagap)$**.**

Javob. (1) induces (sabab bo’ladi, ko’pincha tibbiy kontekstda); (2) generated (biror narsaning ro’y berishiga yoki mavjud bo’lishiga sabab bo’ldi); (3) triggered (boshlab yubordi, odatda to’satdan va salbiy narsani); (4) motivates (ularni ijobiy biror ishni qilishga undaydi); (5) contributed to $(ta'sir$ etuvchi omillardan biri bo’ldi); (6) provoked (sabab bo’ldi, odatda salbiy narsaga); (7) determined $(uni$ belgilovchi asosiy omil); (8) inhibits (ularning boshqa holatda bo’lishi mumkin bo’lganidan kamroq erkin bo’lishiga to’sqinlik qiladi); (9) accounted for (tushuntiradi); (10) facilitate (osonlashtiradi); (11) stimulate (biror narsaning rivojlanishiga yoki ishlashiga sabab bo’ladi); (12) derived (biror narsa natijasida olinadi).

3.2.8 2-mashq — gap boshlanishlarini va yakunlarini moslashtiring

- 1 The article explores the origins — a major consequences for larger families.
- 2 One small explosion set off a chain — b precedents for his decision.
- 3 The confusion probably stemmed — c rise to a widespread sense of disillusionment.
- 4 The proposed new tax could have — dof the concept of democracy.
- 5 The disastrous events of 2003 gave — e reaction, causing massive damage.
- 6 The judge explained that there were — f from a lack of communication.

2-mashq — javoblar kaliti $(6ta$ **juftlik).**

Javob. 1 — $d(The$ article explores the origins of the concept of democracy); 2 — $e(One$ small explosion set off a chain reaction, causing massive damage); 3 — $f(The$ confusion probably stemmed from a lack of communication); 4 — $a(The$ proposed new tax could have major consequences for larger families); 5 — $c(The$ disastrous events of 2003 gave rise to a widespread sense of disillusionment); 6 — $b(The$ judge explained that there were precedents for his decision).

3.2.9 3-mashq — gaplarni yetishmayotgan so'zlar bilan to'ldiring

Gaplarni yetishmayotgan so'zlar bilan to'ldiring. Bitta gapda so'z qo'shish shart emas.

- De Routa's work in the 1970s influenced ___ the development of computer science.
- The acid seemed to have no ___ whatsoever on the plastic, which remained unchanged.
- Everyone hoped that the outcome ___ the meeting between the two governments would be a new

and better trade agreement.

- The reason ___ the failure of the project was a lack of funding.
- The impact of global warming ___ the polar ice caps is now understood more clearly.
- There is no precedent ___ this kind of decision.

3-mashq — javoblar kaliti $(6tagap)$**.**

Javob. (1) so'z kerak emas — influenced to'g'ridan-to'g'ri to'ldiruvchi oladi $(Her$ grandmother influenced Sarah's choice of career); (2) effect (have no effect whatsoever on the plastic); $(3)of(the$ outcome of the meeting); $(4)for(the$ reason for the failure of the project); $(5)on(the$ impact of global warming on the polar ice caps); $(6)for($there is no precedent for this kind of decision).

3.2.10 4-mashq — bu fe'llarga mos otlarni yozing

4-mashq. Bu **fe’llarga mos otlarni yozing. Zarur bo’lsa lug’atdan foydalaning: motivate, influence, trigger, contribute, induce.**

Javob. motivate → motivation; influence → influence (ot xuddi shu shaklga ega); trigger → trigger (ot xuddi shu shaklga ega); contribute → contribution; induce → inducement.

3.2.11 5-mashq — gaplarni 4-mashqdagi otlar bilan to’ldiring

- Byron’s poetry had a significant ___ on the work of other Romantic poets.
- Tree pollen can be a ___ for hay fever attacks in vulnerable people.
- All the political parties illegally offered people ___ to vote for them, such as cash payments, free

tickets for sports events, etc.

- The ___ made by the burning of fossil fuels to global warming is now beyond dispute.
- The ___ to get a good job and to travel and see the world is often more effective than the teacher or

the teaching material in language learning.

5-mashq — javoblar kaliti $(5tagap)$**.**

Javob. (1) influence ($hada$ significant influence on the work); (2) trigger ($canbea$ trigger for hay fever attacks); (3) inducements (offered people inducements to vote for them); (4) contribution (the contribution made by the burning of fossil fuels to global warming); (5) motivation (the motivation to get a good job and to travel).

3.2.12 3-qism: Qisqa nutqlarni tinglash — 1-topshiriq: ma’ruzaga tayyorgarlik uchun bilimingizdan foydalanish

1 Juftlikda ishlang. Quyidagi omillar ishdagi motivatsiya bilan qanday bog’liqligini muhokama qiling: praise from your boss, earning $alot$ of money, your job title, being creative, having power, doing challenging work, respect from colleagues, a good pension, a sense of achievement. 2 1-topshiriqdagi omillardan qaysilari eng kuchli motivatsiya beradi deb o’ylaysiz?

1-topshiriq — namunaviy munozara javobi.

Javob. Namunaviy javoblar: money matters most for people who have to support a family — this is Taylor’s idea that money is the key motivator in the workplace; but praise from your boss, respect from colleagues and a sense of achievement often motivate people more than a higher salary, especially in creative or challenging work; a good pension gives security, which becomes more important with age. Aynan shu omillarni ma’ruzaning A–C slaydlari Taylor, Maslow, McGregor va McClelland & Burnham nazariyalari bilan bog’laydi.

3.2.13 2-topshiriq: ma’ruzaning asosiy fikrlarini tushunish

1 Siz ishdagi motivatsiya haqidagi ma’ruza parchalarini tinglaysiz. Ma’ruza boshidagi A–C slaydlarga qarang va ular qaysi tartibda chiqishini aniqlang. Slayd A: 1 What motivates people? 2 How have theories developed? 3 How have they influenced each other? Slayd B: Theories of motivation — Taylor; Maslow;

McGregor; McClelland & Burnham. Slayd C: The history of motivational theories at work, Dr David Hughes, Institute of Psychology.

2-topshiriq, 1-savol — javob (slaydlar tartibi).

Javob. Eng ehtimoliy tartib — $C \to A \to B$: avval ma'ruzaning titul slaydi (C—The history of motivational theories at work, Dr David Hughes, Institute of Psychology), so'ngra ma'ruzaning yo'naltiruvchi savollari turgan umumiy ko'rinish slaydi (A— What motivates people? How have theories developed? How have they influenced each other?), undan keyin to'rtta nazariyani sanab beruvchi mazmun slaydi (B— Taylor, Maslow, McGregor, McClelland & Burnham).

2-topshiriq, 2-savol. 1-parchani tomosha qiling va 1-topshiriqdagi bashoratingizni tekshiring. Ma'ruza qamrab oladigan asosiy fikrlar bo'yicha qisqa qaydlar yozing.

Javob. Kutilayotgan qaydlar: the lecture will look at a number of theories related to motivation at work — first Taylor's idea that money is the key motivator; then one of the most famous theories of motivation, Maslow's hierarchy of needs; then how Maslow's ideas influenced the work of Douglas McGregor; and finally a slightly different view of motivation developed by McClelland and Burnham. (Aynan shu fikrlarni 3-topshiriqdagi yo'naltiruvchi (signposting) gaplar e'lon qiladi.)

3 Juftlikda ishlang. Qaydlaringizdan foydalanib, 1-parchadan nima tushunganingizni bir-biringizga aytib bering.

3.2.14 3-topshiriq: ma'ruzaning tashkil etilishini tushunish

1-parchani yana tomosha qiling va ma'ruza qanday tuzilishini ko'rsatuvchi 1–5-gaplardagi iboralarni to'ldiring.

- 1 ___, I'd like to look at a number of theories related to motivation ...
- 2 ___ we'll look at Taylor's idea that money is the key motivator in the workplace.
- 3 Then, we'll ___ look at one of the most famous theories of motivation, which is Maslow's

hierarchy of needs.

- 4 ___, we'll see how Maslow's ideas influenced the work of Douglas McGregor ...
- 5 And ___, I want to ___ a slightly different view of motivation developed by McClelland and

Burnham. ...

3-topshiriq — javoblar kaliti ($5tayo'$naltiruvchi bo'sh joy).

Javob. $(1)In$ today's lecture (umumiy ko'rinish berish — til reference: In today's lecture I'd like to look at ...); (2) First (fikrlarni ketma-ket bayon qilish — First, we'll look in more detail at ...); (3) move on to (Then, we'll move on to look at ...); (4) After that (After that, we're going to see ...); (5) then finally ... take (And then finally, I want to take ...).

3.2.15 4-topshiriq: asosiy ma'lumot bo'yicha qayd yozish

1 2-parchani tomosha qiling va vaqt jadvalida motivatsiya nazariyalari egalarini belgilang. (Joylashtiriladigan shaxslar: 1 McClelland and Burnham, 2 Taylor, 3 Maslow, 4 McGregor.)

4-topshiriq, 1-savol — javob (vaqt jadvali).

Javob. Vaqt jadvali xronologik tartibda yuradi: avval Taylor (eng erta nazariya — pul asosiy motivator), so'ngra Maslow (sohani rivojlantirgan ehtiyojlar iyerarxiyasi), keyin McGregor (ishiga Maslow g'oyalari ta'sir qilgan), va oxirida McClelland va Burnham (eng yangi, biroz boshqacha qarash).

2 2-parchani yana tomosha qiling va qaydlarni to'ldiring: 1 Taylor: ___ motivates everyone. 2 Maslow: motivation = ___ main areas. 3 McGregor: management styles = ___ groups? 4 McClelland and Burnham: studied ___, main motivator = ___.

4-topshiriq, 2-savol — javob (kutilayotgan to'ldirishlar; qaydlar yozuvga bog'liq).

Javob. (1) money — Taylor'ning g'oyasi shuki, pul ish joyidagi asosiy motivator, shuning uchun money motivates everyone; (2) five — Maslow'ning ehtiyojlar iyerarxiyasi (hierarchy of needs) beshta darajadan iborat; (3) two — McGregor boshqaruv uslublarini ikki guruhga ajratgan; (4) studied managers, main motivator = power.

3.2.16 5-topshiriq: izohlar va misollar bo'yicha batafsil qayd yozish

$1Ma$'ruzaning 3-parchasini tomosha qiling. Maslow'ning ehtiyojlar iyerarxiyasining har bir darajasi bo'yicha qaydlarni to'ldiring. (Qayd jadvalida ikkita ustun bor — Izoh va ish bilan bog'liq misol; ma'ruzada chop etilgan qatorlar orasida Belonging va Security bor.)

5-topshiriq, 1-savol — qayd jadvalidagi kutilayotgan to'ldirishlar.

Javob. Belonging — izoh: guruhning bir qismi bo'lish va boshqalar tomonidan qabul qilinish tuyg'usiga bo'lgan ehtiyoj; ish bilan bog'liq misol: hamkasblar bilan yaxshi munosabatlar, jamoa a'zosi bo'lish. Security — izoh: xavfsizlik, barqarorlik va himoyaga bo'lgan ehtiyoj; ish bilan bog'liq misol: ish kafolati va barqaror oylik, xavfsiz ish muhiti. Iyerarxiyaning qolgan darajalari (physiological needs, esteem, self-actualization) izoh va ishga oid misolning xuddi shu naqshiga amal qiladi.

2 3-parchaning oxirgi qismini yana tomosha qiling va 1–4-savollarga javob bering.

5-topshiriq, 2.1-savol. Qaysi ehtiyoj birinchi bo'lib qondiriladi?

Javob. Piramidaning pastidagi — asosiy, fiziologik ehtiyojlar (physiological needs) birinchi bo'lib qondiriladi.

5-topshiriq, 2.2-savol. Security ehtiyojlaridan to'g'ridan-to'g'ri esteem ehtiyojlariga o'tish mumkinmi?

Javob. $Yo'q$ — darajalar tartib bilan qondiriladi va belonging (ijtimoiy) ehtiyojlari security va esteem orasida keladi, shuning uchun avval ular qondirilishi kerak.

5-topshiriq, 2.3-savol. Bitta ehtiyoj qondirilganda nima bo'ladi?

Javob. Keyingi, yuqoriroq daraja asosiy motivatorga aylanadi — shaxs piramida bo'ylab yuqoriga ko'tariladi.

5-topshiriq, 2.4-savol. Qoniqish uchun hamma piramida cho'qqisiga chiqishi shartmi?

Javob. $Yo'q$ — hamma self-actualization, ya'ni piramida cho'qqisiga chiqmaydi; odamlar turli darajalarda qoniqish topishi mumkin.

3 1- va 2-topshiriqlardagi javoblaringizni boshqa talaba bilan solishtiring. Yetishmayotgan ma'lumotlarni bir-biringizga to'ldirib olishga yordam bering.

3.2.17 6-topshiriq: ma’ruzani yo’naltiruvchi iboralarni tanib olish

$1Ma$’ruzachi ishlatadigan quyidagi iboralarni a–c funksiyalari bilan moslashtiring: AsI said; So for example; this can be understood as; In other words; An obvious example of this is; How that works is; As we’ve already seen. (a misol keltirish, b izoh berish, c oldin aytilgan narsaga qaytish.)

6-topshiriq, 1-savol — javoblar kaliti.

Javob. a(misol keltirish): So for example; An obvious example of this is. b(izoh berish): this can be understood as; In other words; How that works is. c(oldin aytilgan narsaga qaytish): AsI said; As we’ve already seen.

2 3-parchani yana tomosha qiling va javoblaringizni tekshiring.

4 7-hafta — Yechimlarni taqqoslash; ot yasalishi

4.1 7-hafta uchun grammatika katalogi

[Manba: 7-hafta ma’ruzasi (Week7Lecture.txt), 1-qism: Grammatika — Ot yasalishi; so’z yasalishi videosi «Virtually Fluent»

(https://www.youtube.com/watch?$v = s7BtP7$lWPU)]

7-haftada bitta grammatika bloki bor: ot yasalishi hamda yechimlarni taqqoslashda ishlatiladigan boshqa so’z yasalishi usullari. Ma’ruza «Word Formation Techniques» videosi bilan birga beshta panelni — suffikslar, prefikslar, ildizlar, qo’shma otlar va konversiyani — ishlab chiqadi. Kurs faylidagi suffiks, prefiks, ildiz va qo’shma ot panellari rasm sahifalari; ularning qoidalari quyida to’liq ko’chirib olingan konversiya paneli bilan birga umumlashtirilgan.

4.1.$1So$’z yasalishi usullari — umumiy ko’rinish

- Suffikslar. Suffiks ot hosil qilish uchun fe’l yoki sifatning oxiriga qo’shiladi. Ma’ruza panelidagi ot

yasovchi suffikslar: -tion ($act \to$ action; inspect $\to$ inspection), -ment (develop $\to$ development; measure $\to$ measurement), -ness (happy $\to$ happiness; dark $\to$ darkness), -ity (able $\to$ ability; possible $\to$ possibility), -er (build $\to$ builder; design $\to$ designer), -or ($act \to$ actor; generate $\to$ generator).

- Prefikslar. Prefiks so’zning boshiga qo’shiladi va uning ma’nosini o’zgartiradi — ko’pincha

inkor yoki teskari ma’no berish orqali. Ma’ruzaning prefiks jadvali rasm sahifasidir; uning amaliyoti (6-mashq) jadvaldagi har bir prefiks uchun yana ikkita misol o’ylab topishni so’raydi.

- Ildizlar. Ildizlar usulida ildizga bo’laklar qo’shamiz: inspect $\to$ inspector $\to$ inspection. Ildiz

so’z oilasining asosiy ma’nosini olib yuradi, affikslar esa uning atrofiga qo’shiladi.

- Qo’shma otlar. Qo’shma ot — bitta ifoda sifatida yoziladigan ikki otning birikmasi;

ma’ruza qo’shma ifodalardan so’z tarmoqlarini quradi va ularni tarmoqni to’ldirish, ta’rifni taxmin qilish va to’plash topshiriqlari orqali mashq qildiradi.

- Konversiya. To’liq qoidalar to’plamini quyida ko’ring — konversiya so’zning o’z vazifasini

shaklini o’zgartirmasdan o’zgartirishini anglatadi.

4.1.2 Konversiya — to’liq qoidalar (ma’ruzadan so’zma-so’z)

What is conversion? Conversion means that a word changes its job without changing its shape. Weadd no prefix and no suffix. The same word simply starts to work as a different part of speech. • water (noun): Can I have a glass of water? • water (verb): Please water the plants. Compare this with the roots method. There, we add pieces to a root: inspect → inspector → inspection. In conversion, we add nothing: an email → to email. Teachers sometimes call this «zero derivation», because the ending is zero. Conversion is very common in English. Itis one reason why English learners can use new words quickly: if you know the noun, you can often guess the verb.

Keng tarqalgan naqshlar. Eng ko’p uchraydigan o’zgarish — otdan fe’lga o’tish. Fe’ldan otga o’tish ham juda tez-tez uchraydi.

Naqsh So’z Oldin Keyin

noun → verb email Igot an email. Email me tomorrow.

noun → verb phone My phone is new. I’ll phone you tonight.

noun → verb book I’m reading a book. We booked a table.

noun → verb brush Use a brush. Brush your teeth.

verb → noun run I run every day. I went for a run.

verb → noun drink I drink tea. Would you like a drink?

verb → noun smile She smiled at me. She has a lovely smile.

verb → noun help Can you help me? Thanks for your help.

adjective → verb clean The room is clean. Please clean the room.

adjective → verb empty The box is empty. Empty the box.

adjective → verb calm He stayed calm. Calm down!

adjective → noun the rich, the a rich man The rich do not always feel happy. young

The + sifat bilan so’z odamlar guruhini anglatadi: the poor, the old, the young, the unemployed. U ko’plik fe’l oladi: The young are often good with technology.

Qaysi so’z qo’lingizda ekanini qanday bilish mumkin. Shakl o’zgarmagani uchun so’zning vazifasini gap aytib turadi. Uchta savol bering: 1. U qayerda turibdi? a, the, my, some yoki sifatdan keyin u — ot: a drink, my phone, some help. Ega yoki to, will, can, must dan keyin u — fe’l: I drink tea. I will phone you. 2. U shakl o’zgartira oladimi? Fe’l -s, -ed, -ing oladi: she emails, she emailed, she is emailing.

Ota/an yoki ko’plik -s oladi: an email, two emails. 3. Urg’u siljiydimi? Ikki bo’g’inli so’zlarning kichik bir guruhi urg’uni o’zgartiradi. Otda urg’u birinchi bo’g’inda, fe’lda esa ikkinchi bo’g’inda bo’ladi.

OtFe’l

a REcord to reCORD

a PREsent to preSENT

a CONtest to conTEST

PROduce (fruit and vegetables) to proDUCE (make)

Ba'zi so'zlar, shuningdek, oxirgi tovushni ham *o*'zgartiradi: *ause*/ju:*s*/ → *touse*/ju:*z*/; *a* house /haʊ*s*/ → to house /haʊ*z*/.

Ehtiyot bo'ling. • *Ma*'no biroz *o*'zgaradi. *Ot* fe'lga aylanganda yangi ma'no odatda uch turdan biri bo'ladi: biror narsaga surtish yoki joylashtirish (*to* butter bread = nonga sariyog' surtmoq), biror narsani ishlatish (*to* phone someone = telefon ishlatmoq) yoki biror vazifani bajarish (*to* chair *a* meeting = majlisga raislik qilmoq). • Har bir so'*z* konversiyaga uchramaydi. to email deymiz, lekin to computer demaymiz. Buning qoidasi yo'*q*. Yangi so'*z* uchrasa, lug'atni tekshiring: *u* so'*z* bajarishi mumkin bo'lgan har bir vazifani sanab beradi. • Yangi konversiyalar doim paydo bo'ladi: to google (onlaynda qidirish), to zoom (video qo'ng'iroq qilish), to ghost (kimningdir xabarlariga javob berishni to'xtatish), to bookmark (sahifani saqlash). *Ko*'plari norasmiy, shuning uchun inshoda ishlatishdan oldin uslubini tekshiring. • Konversiyani suffikslar bilan aralashtirib yubormang. Advice (*ot*) va advise (*fe'l*) — imlosi har xil bo'lgan ikki turli so'*z*. *Bu* konversiya emas.

4.2 7-hafta ma'ruzasi — savollar va javoblar

[Manba: 7-hafta ma'ruzasi (Week7Lecture.txt), so'*z* yasalishi panellarining amaliy mashqlari, 1–3-qismlar]

Bu fayl haqida izoh: suffiks, prefiks, ildiz va qo'shma ot panellarining amaliy sahifalari kurs faylida rasm ko'rinishida, shuning uchun quyida faqat ularning *o*'qiladigan ko'rsatmalari kutilayotgan ishlash usuli bilan birga keltirilgan; konversiya mashqlari to'liq *o*'qiladi va to'liq javob kalitlari bilan berilgan.

4.2.1 Suffikslar — amaliy mashqlar

Amaliy mashqlar: 1–7-mashqlar (suffikslar). Yettita mashq sahifasi kurs faylida rasm ko'rinishida bo'lib, gaplari mashinada *o*'qilmaydi; ular katalogda keltirilgan suffiks panelini (umumiy ko'rinishning birinchi qoidasi) mashq qildiradi.

Suffikslar — amaliyot kaliti.

Javob. Chop etilgan misollar skanerda *o*'qilmagani uchun har bir yasalmani katalog jadvali bilan solishtirib tekshiring: act → action, inspect → inspection, produce → production (-tion); develop → development, measure → measurement (-ment); happy → happiness, dark → darkness (-ness); able → ability, possible → possibility (−*ity*); build → builder, design → designer (−*er*); act → actor, generate → generator (−*or*). Imlod *o*'zgarishlariga *e*'tibor bering (happy → happiness, possible → possibility).

4.2.2 Prefikslar — amaliy mashqlar

Amaliy mashqlar: 1–5-mashqlar (prefikslar). *Bu* besh mashq sahifasi ham kurs faylida rasm ko'rinishida. 6-mashq *o*'qiladi: jadvaldagi har bir prefiks uchun yana ikkita misol *o*'ylab toping.

Prefikslar, 6-mashq. Jadvaldagi har bir prefiks uchun yana ikkita misol *o*'ylab toping.

Javob. Prefiks jadvalining *o*'zi rasm sahifasidir; ingliz tilining eng ko'*p* uchraydigan prefikslari bilan mashq sifatida har biri uchun yana ikkita misol: un- (unhappy, unlock), re- (rewrite, reuse), dis- (disagree, disconnect), in-/*im*- (incorrect, impossible), pre- (preview, preheat). *Ma*'ruza jadvalida chop etilgan har bir prefiks uchun *o*'*z* misollaringizni qo'shing.

4.2.3 Ildizlar — amaliy mashqlar

Amaliy mashqlar: 1–3- va 5-mashqlar (ildizlar) kurs faylida rasm ko'rinishida. 4-mashq o'qiladi: Language Reference'da sanab o'tilgan har bir ildizga asoslangan yana uchta so'zo'ylab toping. Har birini mos iboraga joylashtiring.

Ildizlar, 4-mashq. Language Reference'da sanab o'tilgan har bir ildizga asoslangan yana uchta so'zo'ylab toping. Har birini mos iboraga joylashtiring.

Javob. Ma'ruzaning $o'z$ ildizi bilan namuna (inspect → inspector → inspection): xuddi shu ildizdan yana uchta so'z — spectator, respect va spectacular — The stadium holds 40,000 spectators; He was always respectful to his teachers; The view from the summit was spectacular. Ma'ruzaning reference jadvalidagi har bir ildiz uchun naqshni takrorlang.

4.2.$4Qo$'shma otlar — amaliy mashqlar

Qo'shma otlar — ikki otning birikmalari. Ushbu panelning Language Reference'$i(qo$'shma ifodalardan so'z tarmoqlari) kurs faylida rasm sahifasidir.

Qo'shma otlar, 1-mashq. Bu tarmoqlarni Language Reference'dagi mos iboralar bilan to'ldiring. Kerak bo'lsa, qo'shimcha doirachalar qo'shing.

Javob. Bu mashq chop etilgan tarmoqlar bilan ishlaydi: har bir tarmoqni ma'ruzasidan ko'chirib oling, Language Reference'dagi qo'shma iboralarni tegishli doirachalarga yozing (markaziy ot bilan birikadigan ibora uning shoxiga yoziladi)$vao'z$ iboralaringiz uchun qo'shimcha doirachalar qo'shing.

Qo'shma otlar, 3-mashq. Ular nima haqida gaplashmoqda? Har bir holda javob — Language Reference'dagi qo'shma ot.

Javob. Ta'rif gaplari kurs faylida rasm sahifasi sifatida chop etilgan; topshiriq har bir ta'rifni reference'dagi, ikki oti birgalikda tasvirlangan narsani nomlaydigan qo'shma ot bilan moslashtirish orqali yechiladi — aynan shu taxmin qilish o'yinini 4-mashqda taqlid qilishingiz so'raladi.

Qo'shma otlar, 4-mashq. Endi 3-mashqdagi gaplarga o'xshash, 2-mashqda yasagan yangi iboralaringizdan ba'zilariga oid gaplar tuzing.

Javob. Namuna gaplar: $Wehad$ to stop the car — the engine light came on. / She pressed the light switch, and the whole room lit up. Har bir gap qo'shma so'zning ma'nosini uni nomlamasdan beradi, shu tufayli sherik qo'shma otni topishi mumkin.

Qo'shma otlar, 5-mashq. Jurnal yoki gazetadagi istalgan maqolani tanlang va u yerda topgan barcha qo'shma otlarni yozib oling.

Javob. Odatiy texnologiya yoki energetika maqolasida power station, solar panel, wind farm, battery pack yoki energy crisis kabi qo'shma so'zlarni uchratishni kutishingiz mumkin — uchragan har bir ikki otli birikmani yozib boring va qaysilari bitta so'z, ikki so'z yoki chiziqcha bilan yozilishini lug'atdan tekshiring.

Qo'shma otlar, 6-mashq. Bu birlikda ishlagan qo'shma iboralarga qarang. Boshqalar ishlatganini faqat tushunish uchun emas, balki o'zingiz ham ishlata olishingiz kerak deb hisoblaganlaringizning hammasini belgilab qo'ying.

Javob. Bu mustaqil o'qish qarori: faol foydalanish uchun $o'z$ sohangizga oid qo'shma so'zlarni belgilang — masalan, energetika muhandisligi talabasi uchun power station yoki solar panel kabi iboralar — va umumiy o'qishda uchraydiganlarini tanib olish uchun qoldiring.

4.2.5 Konversiya — amaliy mashqlar ($to'liq$ javob kalitlari bilan)

1-mashq — Bir xil so'z, boshqa vazifa. Qalin harflar bilan yozilgan har bir so'z uchun $N(ot), V(fe'l)$ yoki Adj (sifat) deb yozing.

- Can I phone you tonight? ___
- My phone is broken. ___
- We went for a long walk by the river. ___
- I walk to school every day. ___
- Please clean the kitchen. ___
- The kitchen is very clean. ___
- Don’t forget to email me the photos. ___
- $Igot$ an email from my teacher. ___

Konversiya, 1-mashq — javoblar kaliti $(8ta$ **misol).**

Javob. $(1)V$ — phone can so’zidan keyin keladi, demak fe’l; $(2)N$ — my phone; $(3)N$ — a long walk; $(4)V$ — I walk; $(5)V$ — please clean; (6) Adj — very clean; $(7)V$ — to email me; $(8)N$ — an email.

2-mashq — Otdan yoki sifatdan fe’lga. Qavsdagi so’zni fe’l sifatida ishlating. Kerak bo’lsa, shaklini o’zgartiring.

- Anna sent me a text. → Anna ___ me this morning. (text)
- $Iusea$ brush for my hair. → I ___ my hair every morning. (brush)
- $I’m$ reading a good book. → We have ___ a table for eight. (book)
- She put butter on the toast. → She ___ her toast and sat down. (butter)
- The plants need water. → Please ___ the plants while $I’m$ away. (water)
- The box is empty. → Please ___ the box before you throw it away. (empty)

Konversiya, 2-mashq — javoblar kaliti $(6ta$ **misol).**

Javob. (1) Anna texted me this morning. $(2)I$ brush my hair every morning. $(3)We$ have booked a table for eight. (4) She buttered her toast and sat down. (5) Please water the plants while $I’m$ away. (6) Please empty the box before you throw it away.

3-mashq — Fe’ldan otga. Har bir gapni qutidagi so’zlardan biri bilan to’ldiring. Uni ot sifatida ishlating. Bir so’zni ikki marta ishlatishingiz mumkin. Quti: run · drink · smile · help · visit · call · swim.

- I need some ___ with my homework.
- He gave me a big ___ when he saw me.
- Would you like a ___ of water?

- $We had a$ lovely ___ from our grandparents last weekend.
- I'll give you a ___ when I get home.
- After the long ___ in the sea, we were tired.
- She goes for a ___ in the park every morning.

Konversiya, 3-mashq — javoblar kaliti $(7ta$ **misol).**

Javob. (1) help; (2) smile; (3) drink; (4) visit; (5) call; (6) swim; (7) run.

4-mashq — $To'g'$ri urg'u bilan ayting. Har bir gapni ovoz chiqarib o'qing. Qalin so'zning urg'uli bo'g'inini bosh harflar bilan belgilang, masalan REcord yoki reCORD.

- This is my favourite record. ___
- Please record the lesson. ___
- We bought fresh produce at the market. ___
- Japan will produce more cars next year. ___

Konversiya, 4-mashq — javoblar kaliti $(4ta$ **misol).**

Javob. (1) This is my favourite REcord $(ot—urg'u$ birinchi bo'g'inda); (2) Please reCORD the lesson $(fe'l—urg'u$ ikkinchi bo'g'inda); $(3)We$ bought fresh PROduce at the market (ot); (4) Japan will proDUCE more cars next year $(fe'l)$.

5-mashq — Yangi fe'llar va $o'z$ gaplaringiz.

Konversiya, 5-mashq, 1-qism. Ma**'noni taxmin qiling. Qalin yozilgan fe'**l **nima degani? •** I **googled the restaurant before we went. •** We **zoomed with our cousins in Canada. •** He **ghosted me.** He **never answered my messages. • Let's bookmark this page so we can find it later.**

Javob. googled = haqida onlaynda (Google yordamida) ma'lumot qidirildi; zoomed = video qo'ng'iroq qilindi (Zoom orqali); ghosted = javob berishni to'xtatib, aloqani birdaniga uzdi; bookmarked = sahifani keyin tez topish uchun saqladi.

Konversiya, 5-mashq, 2-qism. O**'zingiz yozing. Har bir so'**z **uchun ikkita gap yozing: birida ot bilan, birida fe'**l **bilan (plan · cook · wish · laugh).**

Javob. Namunalar: What's the plan for tonight? $(ot)/We$ plan to leave early. $(fe'l) \cdot Mymumisa$ very good cook. $(ot)/I$ cook dinner every evening. $(fe'l) \cdot He$ made a wish before blowing out the candles. $(ot)/I$ wish you good luck. $(fe'l)\cdot$ She has a lovely laugh. $(ot)/$ Don't laugh at me. $(fe'l)$.

Konversiya, 5-mashq, 3-qism. Sherik bilan suhbatlashing. $O'z$ **tilingizda otlardan yasalgan fe'llarni ishlatasizlarmi? Yaqinda qanday yangilarini eshitdingiz?**

Javob. Erkin munozara. Namuna: ha, mening tilim ham otlarni fe'lga aylantiradi va ingliz tili yangilarini yasab boraveradi — ma'ruzaning «ehtiyot bo'ling» ro'yxatidagi eng yangi konversiyalar: to google (onlaynda qidirish), to zoom (video qo'ng'iroq qilish), to ghost (kimningdir xabarlariga javob berishni to'xtatish$)va$ to bookmark (sahifani saqlash).

4.2.6 2- va 3-qismlar — o'qishni tushunish va Switch Games

2-qism: O’qishni tushunish — 7-hafta faylining o’qish sahifalari rasm ko’rinishida bo’lib, o’qiladigan matn yo’q. 3-qism: Og’zaki bayon — Switch Games: ma’ruza interaktiv Switch Games mashq fayliga havola qiladi (file:///E:/Week%207%20files/Switch%20Games.html); o’yin sinfda haftaning so’z yasalishi materiali bilan og’zaki bayon mashqi sifatida o’ynaladi.

5 Ilova

5.1 Passiv bo’yicha tezkor ma’lumotnoma

[Manba: 5-hafta grammatika ish varag’ining qoidalar sahifasi; 5-hafta ma’ruzasi Language Reference]

Shakl Tuzilishi Misol

present simple passive am/is/are+ past participle Oil and gas are found beneath the ground or sea.

present continuous passive am/is/are being + past participle Two men are being questioned by the police.

past simple passive was/were + past participle Aztec boys were trained to fight.

derive + from A number of benefits can be derived from this situation.

influence (verb)+ object, no preposition Her grandmother influenced Sarah's choice of career.

reach a peak / exceed / fall below — The amount received reaches a peak at the age of 18; exceed [another number] — opposite = fall below.

5.3 Ot yasalishi jadvali

[Manba: 7-hafta ma'ruzasi, 1-qism — so'z yasalishi usullari]

Suffiks Nimaga qo'shiladi Misollar

-tion fe'llar act → action; inspect → inspection; produce → production

-ment fe'llar develop → development; measure → measurement

-ness sifatlar happy → happiness; dark → darkness

-ity sifatlar able → ability; possible → possibility

-er fe'llar build → builder; design → designer

-or fe'llar act → actor; generate → generator

Kursda uchraydigan, 6-hafta sabab-oqibat yo'nalishidan ot yasalishlari: motivate → motivation; influence → influence; trigger → trigger; contribute → contribution; induce → inducement. Konversiya eslatmasi: water (ot) → to water $(fe'l)$ hech narsa qo'shmaydi («zero derivation»).

5.4 O'nta bir qatorli javob

Takrorlash 1. Present simple passive qanday yasaladi?

Javob. am/is/are+ past participle bilan — This room isn't used very often.

Takrorlash 2. Past simple passive qanday yasaladi?

Javob. was/were + past participle bilan — The college was built in the 16th century.

Takrorlash 3. Passiv gapda by ni qachon ishlatasiz?

Javob. Agentni bilish muhim bo'lganda — Some countries have been harmed by tourism; aks holda agentni tashlab yuboring.

Takrorlash 4. with ni qachon ishlatasiz?

Javob. Harakatni bajaradigan buyumlar uchun — The game was played with a ball of solid rubber.

Takrorlash 5. Qaysi fe'llar passivga aylantirilishi mumkin?

Javob. Faqat o'tishli fe'llar — to'ldiruvchisi bor fe'llar (I lost my wallet, I swim every day emas).

Takrorlash 6. Passiv nega texnik jarayonlar uchun standart shakl hisoblanadi?

Javob. Chunki muhim bo'lgan narsa — bosqichlar, bajaruvchi emas — Oil and gas are found beneath the ground or sea; a hole is made using a drill.

Takrorlash 7. Qaysi gap to'g'ri: «an increase in 12% of smart phone sales» yoki «an increase of 12% in smart phone sales»?

Javob. An increase of 12% in smart phone sales — o'zgarish hajmi uchun of, ortayotgan narsa uchun in.

Takrorlash 8. Grafikdagi ikkita chiziq kesishsa yoki parallel yursa, nima qiladi?

Javob. Kesishuvchi chiziqlar bir nuqtada kesishadi; parallel chiziqlar hech qachon kesishmaydi.

Takrorlash 9. Ot **yasovchi uchta suffiksni har biriga misol bilan nomlang.**

Javob. -tion (action), -ment (development), -ness (happiness) — shuningdek -ity (ability), -er (builder), -or (actor).

Takrorlash 10. Konversiya nima?

Javob. $So'z$ shaklini o'zgartirmasdan $o'z$ vazifasini o'zgartiradi — water $(ot) \to$ to water $(fe'l)$; o'qituvchilar buni «zero derivation» deb ataydi.
